

## Selecting and Reporting 2021-22 CTE Program of Study

All career and technical education (CTE) programs of study (POS) and any valid special programs of study (SPOS) that a school district plans to offer for the 2021-22 school year must be selected and reported through eTIGER, Program of Study, to CTE Division no later than **Sept. 30, 2021**. This selection process is extremely important.

For 2021-22 school year,

- Quite a few course codes were changed. Pay special attention to the courses listed under the active POS (most ending with 2021-22) or SPOS (ending with "(s#)").
- Three Programs of Study were retired:
  - Electromechanical Technology (2020-21) in Advanced Manufacturing career cluster
  - Engineering by Design (2020-21) in STEM career cluster
  - Project Lead the Way (2020-21) in STEM career cluster
- One Program of Study was added:
  - Industrial Maintenance Technology (2021-22) in Advanced Manufacturing career cluster. This POS replaced Electromechanical Technology.
- One Program of Study kept the same:
  - **Cosmetology (2020-21)** in Human Service career cluster

### Selection and Reporting Process

When selecting a program of study, use the [2021-22 Programs of Study](#) document as your primary reference. It will list all approved 2021-22 programs of study and courses.

### Selecting/Reporting 2021-22 Programs of Study by School

*Note: The program of study reporting application is a state-secured, authorization application. Please go through Single Sign On (the [Orion dashboard](#)) to access eTIGER.*

1. Access eTIGER through Orion dashboard (Single Sign On, SSO)
2. Select the "Program of Study" access from the list.
3. Click "**School Assignments**" located on the "Clusters – Programs of Study" Home page.
4. Select "**School Year 2021-22,**"
5. Select a **participating school** from your dropdown list. Indicate all programs of study (including SPOS) which will be offered at this school for the 2021-22 school year.
  - *Note: Any previously approved SPOS, which has not expired, will appear with an "s" and numeral. Email [Li-Zung.Lin@tn.gov](mailto:Li-Zung.Lin@tn.gov) for any missing SPOS for the designated school.*
6. After selecting the desired programs of study, click "**Save Changes.**"
  - *Note: Your user ID and date will be attached to the selected programs of study.*
7. Repeat steps 3-4 for each participating school in your district.
8. Once all programs of study have been selected for every participating school in your district, review and confirm your selections by clicking "**Print District.**"
  - *Note: Only course codes numbers for the POS/SPOS will appear on the "Print District" screen. In order to view the course titles within a particular program of study, please refer to the [2021-22 Programs of Study](#).)*
9. Print this page for your records (optional).
