

CIW Web Foundations Associate

Aligned Program of Study:

- Coding
- Web Design

Description

CIW Web Foundations Associate is an entry-level certification targeted at high school students interested in website development. There are no prerequisites required to take the exam. The CIW Web Foundations Associate exam is a blanket exam that covers topics found in the three individual tests including Internet Business Associate, Site Development Associate, or Network Technology Associate exams. The CIW Web Foundations Associate is a globally accepted certification that validates foundational, vendor-neutral web design knowledge and skills. This certification covers the essential principles making it an important stepping stone for any web design career.
