

CompTIA Security +

Aligned Program of Study: Cybersecurity

Description

CompTIA Security+ is a globally accepted certification that validates foundational, vendor-neutral IT security knowledge and skills. This certification covers the essential principles for network security and risk management, making it an important stepping-stone of an IT security career. IT security is paramount to organizations as cloud computing and mobile devices have changed the way business is conducted. With the massive amounts of data transmitted and stored on networks throughout the world, it's essential to have effective security practices in place.
