CIW Site Development Associate

Aligned Program of Study: Web Design

Description
The CIW Site Development Associate is ideal for students interested in Web site design or marketing. The CIW Site Development Associate certification covers web site development with usage of Hypertext Markup Language version 5 (HTML) and Cascading Sheets (CSS). It also covers manual code writing and graphical user interface (GUI) authoring tools. This certification proves the students' foundational knowledge to develop basic Web sites. There are no prerequisites required to take the exam.
