Cisco Certified Network Associate (CCNA)

Aligned Program of Study: Networking Systems

Description
The Cisco Certified Network Associate (CCNA) is the IT industry's most widely recognized and respected associate-level certification. The CCNA program offers comprehensive associate-level training and certification focused on network fundamentals, network access, IP connectivity, IP services, security fundamentals, and automation and programmability. All these technologies are essential for individuals to implement and administer networking and IT infrastructure.

Vendors with Data Sharing MOU with TDOE
TDOE does not currently have a data-sharing agreement with any vendors, therefore the burden of proof to provide evidence of earning the certification will be on the school system.
