

Cambridge International Examinations Overview

Cambridge International Examinations provides world-class education for students of all backgrounds, at a competitive cost compared to other programs available. Cambridge provides academically rigorous curricula emphasizing critical thinking and inquiry-based learning that engages all students to develop the knowledge and skills needed to be successful in college and beyond.

Cambridge International Examinations is part of the University of Cambridge and is the world's largest provider of international education programs, serving over 160 countries and used by over 10,000 schools worldwide. The popularity of Cambridge is growing in the U.S., with the total number of exams taken this year up 20 percent from a year ago. Cambridge schools are in 31 states and the District of Columbia.

Cambridge International Examinations offers the Cambridge Pathway for all students ages 5-19:

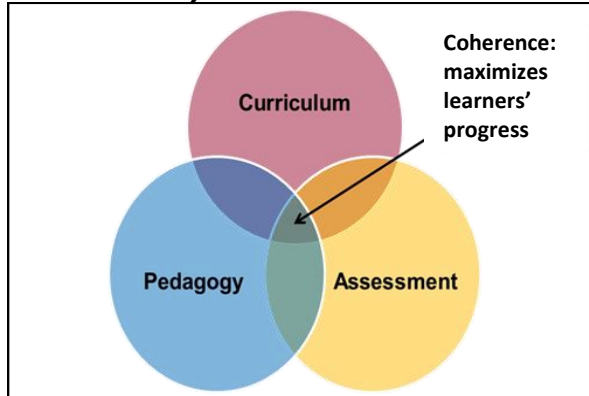

**Not offered in U.S.: O Level & Pre-U*

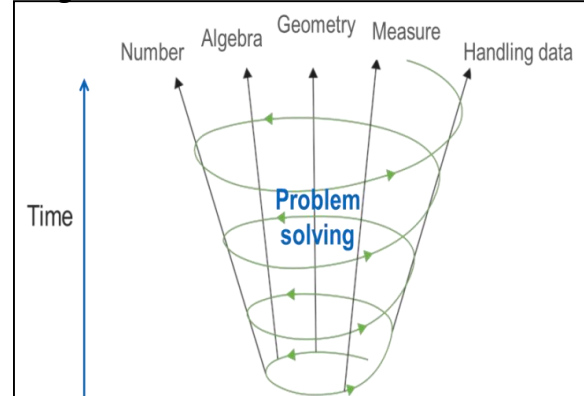

The Cambridge Pathway program provides:

- An aligned international curriculum, pedagogy and assessment system backed by over 150 years of leading research and assessment practices
- Progressive curriculum with one stage building on the next stage with spiraling, widening breadth
- Global context for student achievement
- A skills based syllabus that allows for local content to contextually engage students--the syllabus structure is meant to provide support rather than a rigid pacing plan
- Extensive supports for educators, such as syllabus publications, online resources, training, connection to a global educator community and professional development

Aligned Curriculum, Pedagogy, and Assessment System

Progressive Curriculum

Emphasis on a Learner Centered Approach

Cambridge uses backward design for curricula and assessments with **five** Cambridge learner attributes in mind, emphasizing the need for all students to develop life skills:

- **Confident** in working with information and ideas – their own and of others
- **Responsible** for themselves, responsive to and respectful of others
- **Reflective** as learners, developing their ability to learn
- **Innovative** and equipped for new and future challenges
- **Engaged** intellectually and socially, and ready to make a difference

Our programs are compatible with other curricula, so you are free to build your unique curricula system.

Currently, over 500 colleges and universities in the U.S., such as Massachusetts Institute of Technology (MIT), Duke University, University of Washington, and Florida colleges and universities, have credit and placement policies for Cambridge courses.

Cambridge also collaborates with the U.S. Higher Education Advisory Council on program and assessment development. This council includes representatives from several higher education institutions, such as Massachusetts Institute of Technology (MIT), University of Pennsylvania, University of Washington, University of Virginia, to name a few.
