CIW Web Foundations Associate

Aligned Program of Study: Coding, Web Design

Aligned Course(s):

Coding II (6099)

Web Site Development (6101)

Description

CIW Web Foundations Associate is an entry-level certification targeted at high school students interested in website development. There are no prerequisites required to take the exam. The CIW Web Foundations Associate exam is a blanket exam that covers topics found in the three individual tests including: Internet Business Associate, Site Development Associate, or Network Technology Associate exams. The CIW Web Foundations Associate is a globally accepted certification that validates foundational, vendor-neutral web design knowledge and skills. This certification covers the essential principles making it an important stepping stone for any web design career.

Materials and Resources

There are a variety of training materials and resources found on CIW's website. For questions about the program, training materials, or program pricing, please contact Erik Barrantes (contact details below).

Testing Sites

CIW Exams must be administered in a proctored environment. There are three options for administering CIW exams:

1. **CTC Program** This service is included in the CIW Academy. Participating schools must designate at least one staff member to become a Certification Testing Center (CTC) Proctor. CTC Proctor status must be earned by reviewing the CTC Policies and Procedures Manual, passing a free test, and completing a CTC Proctor Agreement Form. The process of earning CTC Proctor Status may take some time (one to three weeks is typical). Schools may not administer CIW Exams until at least one staff member has earned CTC Proctor Status. Please allow sufficient time to prepare for the exam. Once your school has enrolled in the CTC Program, instructions will be sent to begin the process. The CIW Web Foundations Associate exam is $150.

   Please contact Erik Barrantes at least 30 days before testing to begin getting the school set up as a Certified Testing Center.

2. **PSI remote video proctoring service**: PSI offers a remote proctoring service for all CIW exams. Candidates must have access to a functional webcam, stable high speed internet connection, and a quiet location (home or office). Candidates will be monitored during the entire exam session. Exams are $150 each.

3. **Pearson VUE**: Pearson VUE is ideal for independent self-studiers who are not able to meet the PSI remote proctoring requirements, and wish to take CIW exams in a physical location. Exams are $150 each.
