

# CTE License and Endorsement Information

## [Educator Licensure Policy 5.502](#) Overview

### **Practitioner Occupational Teacher License**

(Three year validity period, renewable once)

The practitioner occupational license is the initial license issued to occupational educators who have met endorsement requirements pursuant to State Board of Education policy 5.502, had content verification provided by the Tennessee Department of Education's college, career and technical education Division, and hold the required current/valid industry certification were indicated prior to entering Tennessee public schools. Individuals applying for the practitioner occupational teacher license must meet the following criteria:

- Formally admitted to or have completed a state-approved educator preparation program
- Recommended by the state-approved educator preparation program
- High school graduate or higher
- Meet industry certification requirements
- Meet the endorsement experience requirements

Prior to recommending a candidate for licensure, Educator Preparation Providers (EPPs) should receive verification from the Department of Education that the applicant meets stated criteria for licensure, such as required industry certification and experience.

### ***Professional Occupational Teacher License***

(Six year validity period, renewable)

The professional occupational education license is issued to educators upon meeting licensure expectations at the practitioner level, completing coursework covering the professional education standards and additional requirements as defined in State Board of Education policy.

**Tennessee Code Annotated (TCA) specifies that educators must be properly licensed prior to entering the classroom.**

### **TCA § 49-5-101**

No person shall be employed as principal, teacher or supervisor of any public elementary or high school by any local school district, or receive any pay for such services out of the public school funds of the local school district until the person presents to the director of schools a valid license as prescribed in this part. It is unlawful for any board of education to issue any warrant or check to such persons for services as principal, teacher or supervisor until the person has presented for record a license valid for the term of employment.

## Occupational Endorsements

This table outlines endorsements available for Tennessee Occupational Education License only. Occupational endorsements can only be issued to a practitioner or professional occupational education license. Academic endorsements cannot be added to a practitioner or professional occupational education license.

## Initial Issuance of Practitioner Occupational Education License

Requirements for a practitioner occupational education license align with the endorsement(s) an applicant is seeking. Occupational endorsements have different education, examples of qualifying occupational work experience, and industry certification requirements. The examples are only a sampling of occupations which could qualify for the endorsement area. If there are questions about occupations that are not listed, please contact [Educator.Licensure@tn.gov](mailto:Educator.Licensure@tn.gov). Prior to enrollment in a preparation program, qualifications, such as industry certification, work experience, and postsecondary education, shall be reviewed by the Tennessee Department of Education's college, career and technical education division.

Endorsement requirements for a practitioner occupational education license can be met through a pathway using combined work experience, industry certification, and postsecondary education.

## Advancing to a Professional Occupational Education License

In addition to completing an educator preparation program, an educator must provide evidence of the following to advance to a professional occupational license:

- three years of teaching experience,
- recommendation from the Director of Schools or 30 professional development points (PDPs),
- attendance at the five-day new occupational teacher training,
- four observations of three experienced teachers within your endorsed area and one experienced teacher outside of your teaching area,
- mentor contact information and signature, **and**
- current/valid industry certification for specified endorsements and course assignments requiring industry certification.

## Renewal of the Practitioner Occupational License

The Practitioner Occupational License is valid for three years. If an educator does not meet expectations for advancement to the Professional Occupational License, the Practitioner Occupational License can be renewed once. If the educator does not meet expectations at the end of the second validity period, the license will become inactive.

## Renewal of the Professional Occupational License

To renew the professional occupational education license an educator must have documentation of 60 professional development points and current/valid industry certification if indicated in the current correlation of course code document. Professional development points can only be used to renew a professional occupational license.

At the date of expiration, if an educator does not have documentation of 60 professional development points and required industry certification, the license will become inactive. In order to reactivate the license and endorsements held, the educator must submit an application to reinstate, provide evidence of 60 professional development points and industry certification to the College, Career and Technical Education licensure consultant.

Option	PDPs Awarded	Required Documentation
Training (Academy/Institute/ Seminar/Conference)	1 clock hour = 1 PDP	Certification of completion, Transcript <b>or</b> Verification from signed by the Director of Schools (or designee)
College/University Coursework	1 semester hour credit = 10 PDPs	Transcript
Overall Evaluation Score from TN- Approved evaluation model	Overall Score of 5 = 20 PDPs Overall Score of 4 = 15 PDPs Overall Score of 3 = 10 PDPs	This information is maintained by TDOE. Educators are not required to submit any documentation. PDPs based on overall evaluation scores may be accrued on an annual basis.
National Board Certification	30 PDPs	Official documentation from NBPTS

## Adding Occupational Endorsements

Licensed occupational educators who have completed an approved education preparation program for initial licensure may add additional occupational endorsements. For occupational endorsements requiring industry certification, submit evidence of completion (e.g., certificate, qualifying scores, certification card). To add an occupational endorsement not requiring industry certification you must provide evidence in **at least one** of the following ways:

- Verification of five years of full-time work experience in requested occupational area out of the past eight years; teaching is not considered occupational work experience and will not be accepted;

- Associate’s degree in the endorsement area and three years full-time work experience in the endorsement area out of the past eight years;
- Bachelor’s degree in the endorsement area and one year full-time work experience in the endorsement area out of the past eight years; **or**
- Master’s degree in the endorsement area.

Occupational endorsements can only be added to a practitioner occupational or professional occupational educator license. Academic endorsements cannot be added to a practitioner occupational or professional occupational educator license.

## Career and Technical Education Academic Endorsements

The table below outlines the CTE academic endorsements that are processed by the division of college, career, and technical education. All academic practitioner license applications must be submitted through TNCompass by an educator prep program (EPP). The practitioner teacher license is valid for a period of three years.

Individuals applying for the practitioner license must meet the following criteria:

- Hold a bachelor’s degree from a regionally accredited college or university **AND**
- Be formally admitted to or have completed a state-approved educator preparation program **AND**
- Recommended by the state-approved educator preparation program **OR**
- Submitted qualifying scores on required assessment.

Educators must submit qualifying scores on all required assessments within three years of obtaining the practitioner license. If the educator does not submit assessment scores and complete an EPP within three years of the license being issued, the license will become inactive.

Academic endorsements can only be issued to a practitioner or professional education license. Occupational endorsements cannot be added to a practitioner or professional educator license.

## Advancing a Professional Teacher License

In addition to completing an EPP, an educator must provide the following evidence of the following to advance to a professional license:

- three years of experience, and
- the recommendation of the Director of Schools, **or**
- documentation of 30 PDPs

## Renewal of a Professional Teacher License

To renew the professional education license an educator must have documentation of 60 professional development points. Professional development points can only be used to renew a professional license, not advance a practitioner education license.

At the date of expiration, if an educator does not have documentation of 60 professional development points, the license will become inactive. In order to reactivate the license and endorsements held, the educator must provide evidence of 60 professional development points to the College, Career and Technical Education licensure consultant.
