

District Plan Review Tool

Minimum Requirements for District Plans

1. Planning Team

The district planning team represents all required stakeholders, including teachers, principals, administrators (including administrators of Title I programs), other appropriate school personnel, and parents of Title I children. Districts with English learner (EL) populations should also ensure that the team includes one member who can address EL needs. The plan includes each participants' title, and describes how all required stakeholders were engaged in plan development and its continuous review and update.

2. Priority Needs

Identify and prioritize 3-5 needs based on a thorough data review. For the prioritized needs, the plan should provide:

- a description of progress and challenges related to the prioritized need
- a description of prior strategies that may or may not have contributed to your outcomes
- identification of root causes of the prioritized needs

3. Additional Areas

The plan should answer all required questions, including those related to:

- student group improvement and support
- well-rounded education
- disciplinary practices
- safe, supportive, and healthy environments
- integration and effective use of technology in the classroom
- family and family engagement
- professional learning for educators
- effective transitions across grade bands
- effective transitions from high school to postsecondary and career
- educator placement
- integration of CTE and work-based learning opportunities
- needs of English Language Learners
- needs of students with dyslexia
- IDEA annual performance report results
