

## Tennessee's Education for Homeless Children and Youth Data Factsheet

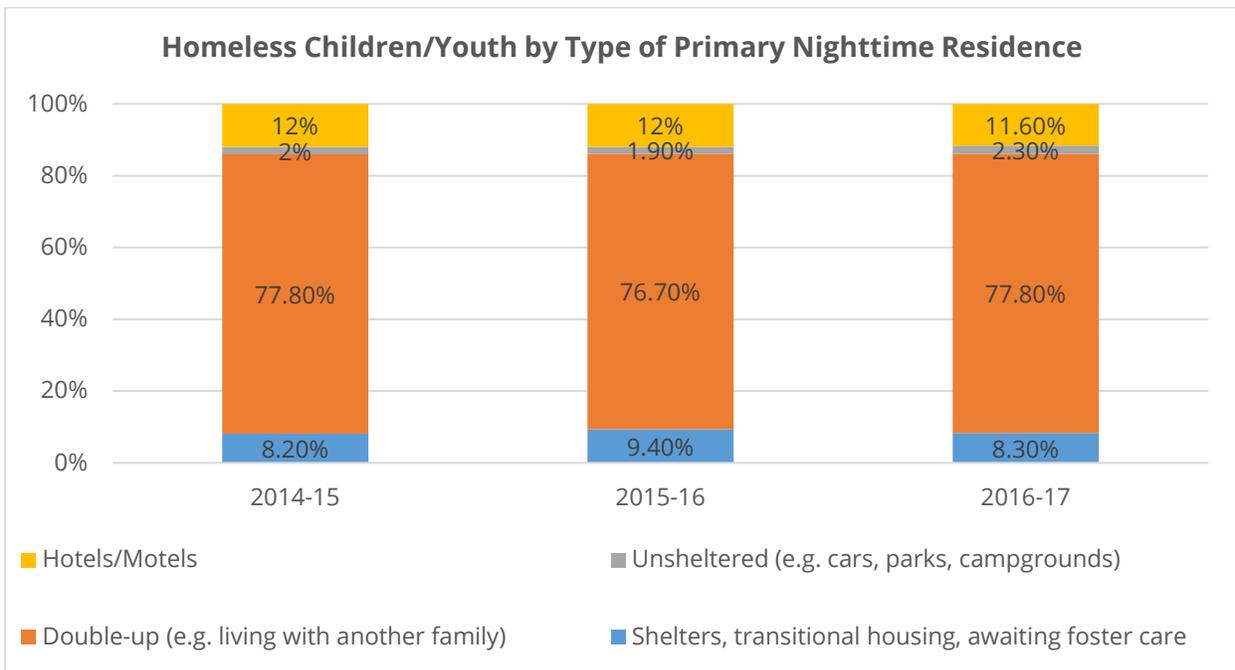

The McKinney-Vento Homeless Assistance Act requires the state educational agency to post the number of children and youths identified as homeless (Section 722(f)(1)(A)). The data presented below is specific to Tennessee students who were identified as homeless as defined by the McKinney-Vento Homeless Assistance Act.

The data presented is drawn from the [National Center for Homeless Education](#), which reports data from the most recently available years of the U.S. Department of Education's [EDFacts Initiative](#), as well as from the Tennessee Department of Education.

*Note: These subgroups are not mutually exclusive—it is possible for homeless students to be counted in more than one subgroup.*

### **Data Requests**

If you have a data request, please first check the [Data Downloads & Requests web page](#) before submitting a data request form. Many state-, district-, and school-level data sets are available for public use; however, the department does not make student-level data available for public consumption. In reviewing requests for additional data, consideration is given to access permitted by statute and federal law, privacy concerns, security procedures, the availability of staff to monitor the data release, and the perceived benefits. To request data, please complete [this data request form](#). With additional questions, reach out to [Justin.Singleton@tn.gov](mailto:Justin.Singleton@tn.gov).
