BELOW IS THE POSSIBLE INCENTIVE/BONUS REWARDS FOR TEACHERS FOR MANCHESTER CITY SCHOOLS					
Three components would determine extra/incentive/bonus pay for teachers. (TAP Formula)					
1. 50%	Skills, Knowledge and Responsibilites (from 4 evaluations on everyone)				
2. 30%	Individual Value Added				
3. 20%	School Value Added				
The amount of extra/incentive/bonus pay would vary accordingly:					
Level 1 and 2 teachers would only be eligible for extra pay if their individual value added is 3 or greater and if the school value added is 3 or greater.					
Based on the TAP formula above, Level 3, 4 and 5 Teachers can receive a performance bonus based on scores of all three levels. Incentive pay is based on the TAP Model for Performance Based Compensation and calculated by NIET. These teacher amounts will vary from school to school based on the number of teachers in each pool. This composite list will be provided to the administration of Manchester City Schools for payment out to the teacher on the next school year fall paycheck through the TAP Grant monies.
