\*These schools offer an inclusive educational setting. For the purposes of the IEA Program, a participating non-public school is considered to have an inclusive educational setting if:

1. Students with disabilities are educated with non-disabled children, and

2. No more than 50 percent of the students in an individual classroom or setting are students with disabilities.

This list does not constitute an endorsement by the department. It is the responsibility of account holders to thoroughly research schools and determine whether a school meets their child's educational needs. Participating schools may not have available IEA seats for all grades the school serves.
