Three Years of Experience: To meet the criteria for advancement, the educator must present documentation of three years of education work experience. The burden of proof rests with the educator. In total, the experience must be no less than twenty-five months of full-time work of which at least one year (10 months) must have been within a Tennessee public or approved non-public school. An educator must have held a valid license during the period when the experience was accrued. Substitute experience cannot be used for license advancement. Candidates who successfully complete a full school year internship clinical practice and hold a practitioner license shall receive credit for a year of teaching experience. These candidates must submit an experience verification form signed by both their Educator Preparation Provider, and the school system in which they completed their internship.

Out-of-State Experience: To receive credit for education work experience outside of Tennessee, the educator must have held a valid license while teaching in the state or country where the experience was accrued. Other types of experience may be used for the purposes of salary ratings. For example, a local education agency may elect to give an engineer credit for the years spent working in that field prior to becoming a teacher. However, that type of work experience is not counted for purpose of advancing to a professional license.
