STUDENT READINESS

TENNESSEE PUBLIC SCHOOLS WILL BE EQUIPPED TO SERVE THE ACADEMIC AND NON-ACADEMIC NEEDS OF ALL STUDENTS IN THEIR CAREER PATHWAYS

ACADEMICS

ALL TENNESSEE STUDENTS WILL HAVE ACCESS TO A HIGH-QUALITY EDUCATION, NO MATTER WHERE THEY LIVE

EDUCATORS

TENNESSEE WILL SET A NEW PATH FOR THE EDUCATION PROFESSION AND BE THE TOP STATE IN WHICH TO BECOME AND REMAIN A TEACHER AND LEADER FOR ALL
Table of Contents

- **PART I:** Overview

- **PART II:** District-Level Data Framework

- **Part III:** Actions for Recovery

- **PART IV:** TCAP Data Results by District
Part I

Overview
Emerging readers have been the focus of many significant learning loss recovery efforts. Results from 2022 TCAP assessments show that elementary students improved their ELA scores and are performing at a level similar to that of pre-pandemic years.

Improved performance in math was evident for TN students of all ages. For all grade bands, 2022 TCAP results for math show an increase in students meeting grade-level standards and a decrease in students not yet meeting grade level standards.

Both schools and families demonstrated a shared commitment to finding out how our students are performing by achieving a 98% student participation rate on the statewide 2021-22 TCAP administration. This broad representation gives us confidence in using TCAP data at the state level to evaluate progress and drive decision-making.

Tennessee is demonstrating learning acceleration and will continue to focus on doing what’s best for our kids.
Context for 2022 TCAP Results

• These analyses are **reflective of the complete TCAP 2022 administration**, including both spring 2022 administration as well as fall 2021 end-of-course exams.

• These analyses **do not include the results of TCAP-Alt assessments** (for students with the most significant learning disabilities.)

• High school end-of-course (EOC) exams were administered on computer, while grades 3-8 exams were administered on paper.
KEY TAKE-AWAYS

- 36.4% of Tennessee students are meeting grade level expectations in English language arts (ELA).

- Proficiency gains were reflected in all tested grades.

- Overall proficiency in ELA has largely returned to pre-pandemic levels, with more students scoring Met and Exceeded than in 2019.

- State Supports: Reading 360; Tennessee Literacy Success Act; Tennessee ALL Corps; universal implementation of high-quality instructional materials; summer camps; Best for All Central resources

SOURCE: Tennessee Department of Education, 2022
KEY TAKE-AWAYS

• Students in elementary school, middle school and high school grade bands are performing or outperforming pre-pandemic levels of proficiency.

• Students in upper elementary school and middle school saw the most significant gains from pre-pandemic numbers.

SOURCE: Tennessee Department of Education, 2022
ALL STUDENTS OVERVIEW

KEY TAKE-AWAYS

3 in 10 Tennessee students are meeting grade level expectations in math.

- Based on national projections, math recovery is expected to recover faster than ELA.
- Growth in math matched or exceeded gains seen in previous years and is outpacing math projections for pandemic recovery.

- **State Supports**: Tennessee ALL Corps; summer camps; Best for All Central; free online tutoring resources available for all students.

SOURCE: Tennessee Department of Education, 2022
RESULTS BY SCHOOL LEVEL

KEY TAKE-AWAYS

• Overall proficiency in math increased in every grade band but is not back to pre-pandemic levels.

• 7th grade and Algebra II saw the largest growth in the percentage of students scoring Met and Exceeded.
**ALL STUDENTS OVERVIEW**

**KEY TAKE-AWAYS**

- Overall, proficiency rates held steady for science, with an **increase of 2 percentage points** in overall student proficiency.

- **State Supports**: Ongoing partnership with TSIN to expand STEM designated schools from 15 in 2018 to 88 in 2022; extended programming on PBS and Best For All Central; expanded STREAM programming in Tennessee summer camps.

*There were no operational science tests administered in 2019 & assessment standards were re-set in 2021.*

SOURCE: Tennessee Department of Education, 2022
**KEY TAKE-AWAYS**

- **Elementary students saw larger growth** from 2021 than middle school or high school students.

- All grade levels experienced an increase in students scoring **Exceeded Expectations**.

- **State Supports**: Ongoing partnership with TSIN to expand STEM designated schools from 15 in 2018 to 88 in 2022; extended programming on PBS and Best For All Central; expanded STREAM programming in Tennessee summer camps.

*There were no operational science tests administered in 2019 & assessment standards were re-set in 2021.*

SOURCE: Tennessee Department of Education, 2022
KEY TAKE-AWAYS

• Overall social studies proficiency has continued to increase since 2017 – from 30% to 43%.

• Fewer students scored Below and Approaching while more students scored in both Met and Exceeded Expectations.

• State Supports: Expanded resources on Best for All Central; strengthened the Governor's Civic Seal program; strong statewide implementation of knowledge-building materials in English Language Arts (ELA).

*Social Studies standards were updated in 2018 and assessment standards were re-set in 2021.

SOURCE: Tennessee Department of Education, 2022
OVERVIEW

KEY TAKE-AWAYS

• Proficiency rates in both middle school and high school have outperformed pre-pandemic levels.

• High school U.S. history students are growing faster than their middle school peers.

• State Supports: Expanded resources on Best for All Central; strong statewide implementation of knowledge-building materials in English Language Arts (ELA).

*Social Studies standards were updated in 2018 and assessment standards were re-set in 2021.

SOURCE: Tennessee Department of Education, 2022
Part II

District-Level Data Framework
Grade 4 results show large increases in students scoring Exceeded Expectations, with decreases in the number of students scoring Approaching.
KEY TAKE-AWAYS

- Proficiency rates in 4th grade ELA increased from 33.3% in 2021 to 39.3% in 2022, out-performing pre-pandemic performance.

- There is a large increase in students scoring Exceeded.

- Positive increase of proficiency rates in 4th grade ELA was observed across all student groups, ranging from 3% points increase among students with disabilities to 9% points increase among Asian students.

SOURCE: Tennessee Department of Education, 2022
KEY TAKE-AWAYS

• Proficiency rates in 7th grade math increased from 22.9% in 2021 to 30.2% in 2022.

• There were increases in students scoring Exceeded and Met Expectations.

• There was a slight decrease in Approaching and significant decrease in students scoring Below.

• Positive increase of proficiency rates in 7th grade math was observed across all student groups, ranging from 2 percentage points increase among students with disabilities and a 4 percentage point increase among economically disadvantaged students.

SOURCE: Tennessee Department of Education, 2022
How to Read the Data

Each district slide series includes the:

A. Subject / Grade levels:
   - **ELA**: Grade 4
   - **MATH**: Grade 7

B. School district name

C. Data over time for how the district performed in the subject / grade vs. How the state performed

D. Data over time for how various student groups performed in the subject and grade.

E. Proficiency percentages (rates of students who score either “Met Expectations” or “Exceeded Expectations”) from the 2021-22 TCAP test administrations for all eligible Tennessee students and students in the district.

G. Example of a "broken line" due to data masking for fewer than 10 students in group in a particular year.

**IMPORTANT!**

Student data is masked (or suppressed) when they represent less than ten students in a student group for a district, potentially making data appear incomplete or as gaps on charts.
Understanding who tested helps to understand trends

- Proficiency rates only include students who received a valid TCAP score.
  - Students not participating are not represented in proficiency rates.
  - On average across the state, participation rates for all student groups increased from last year, particularly for economically disadvantaged students, students with disabilities, and English learners.

- Varying participation rates make local context an important consideration when reviewing overall proficiency results.
  - Since districts and schools have different representation of each student group, district participation data may change more substantially year-over-year than statewide averages.
  - Large changes in participation may impact changes in proficiency rates when data is compared longitudinally.

- Tennessee students experienced the effects of the pandemic differently and are recovering at different rates.
  - It is critical to examine the variation of learning across student groups, especially groups of students who might have been more negatively impacted by the pandemic (e.g., Economically disadvantaged students, English learners, etc.).
  - For example, at a state level, students with disabilities outperformed pre-pandemic levels of proficiency in ELA, while English learners have not yet recovered from last year’s decline in proficiency rates.

- When groups of students are small, changes to a few students could result in large change in proficiency rates of their group. Typically, a minimum of 10 students need to participate to have performance reported.
Was the participation rate in my district significantly different (for all students or specific student groups) this year than last?

How do changes in proficiency rates in my district compare to changes observed across the state?

How do changes in proficiency rates compare across student groups and subject areas?

What other factors might help explain some of the changes seen in these data?
FOR EDUCATORS
Find and Learn from an Exemplar

- Find similar districts that saw improved outcomes for students.
  - *What can I learn from them?*
  - *How can I learn from their experiences to help my students?*

FOR FAMILIES
Data is the Starting Point

- Visit [familyreport.tnedu.gov](http://familyreport.tnedu.gov) to review your student's individual data, including comparison to last year's results and strengths and opportunities in each subject area (Spring 2022 results will be available July 15).

- Identify whether your student’s experience mirrors the experience of the district to start a conversation about opportunities to learn at your school.
  - *How can I work with my school to ensure my students are on track to achieve their goals?*
Assessment Data is Different than Accountability

- These slides only include TCAP assessment results.

- Assessment is about measuring and reporting on the \textit{performance of students}.

- Assessment data is reported for all kids, because we need to know how all our kids are doing. Accountability applies additional business rules, such as how long a student has been enrolled in a school, when attributing student scores to schools and districts.

- Accountability data is about measuring and reporting on the \textit{performance of school systems} and includes assessment data among many other measures.
All TCAP assessments cancelled due to pandemic-related school closures.

Successful high school end-of-course (EOC) administration, despite COVID challenges, due to multiple assessment windows and make-up flexibilities.

Successful full TCAP administration. Strong 95% statewide student participation rate due to testing flexibilities and the efforts of schools and districts.

Smooth return to online testing for high school EOC exams.

Successful statewide administration with large increases in participation across the state, including online high school testing and paper-based elementary and middle school testing.
Part III
Actions for Recovery
TDOE Major Investments in Student Success

1. Reading 360
   - A comprehensive vision for Tennessee Literacy

2. TN ALLCorps
   - Tennessee Accelerating Literacy & Learning Corps

3. INNOVATIVE SCHOOL MODELS

4. GROW YOUR OWN
   - Partnerships to Strengthen Tennessee’s Educator Pipeline

5. TISA
   - Tennessee Investment in Student Achievement

[Diagram images for each investment program are included in the image.]
ACADEMICS

Strategy: TDOE has invested more than $358M in academic supports focusing on early elementary reading, middle school math, closing achievement gaps, and supporting students not on grade level.

Focus: TDOE is focused on literacy and early reading and high-dosage, low-ratio tutoring as the most research-driven ways to support students who need more individualized supports to reach grade level mastery.

To address early literacy and the needs of students not yet on grade level, strategies include providing resources to teachers and parents, professional development to school systems, targeted instruction for students, and strong partnerships with families and communities across the state.

Programs and supports include:
- **Reading 360** supports for our youngest readers
- **TN ALL Corps** tutoring resources for K – 12th grade students
- **Best for All Central** website for all students, families and educators
- **Summer Programming** opportunities to benefit students and accelerate achievement
INVESTING TO DRIVE OUTCOMES

STUDENT READINESS

**Strategy:** TDOE has invested more than $106M to provide all students with access to the courses, programs and supports they need to achieve, by tackling achievement gaps, redesigning high schools, and preparing students for post-secondary persistence.

**Focus:** TDOE is focused on Innovative School Models and student supports to help ensure all students have the opportunity they deserve to excel in the career pathways of their choice.

With more than $30M invested, **21 school districts will be launching public-private partnerships** to help prepare high schoolers for jobs and careers in their local communities.

**Additional programs and supports include:**

- **AP Access for All** program to help more students earn college credit while in high school
- **ACT Prep** program to provide all Tennessee high school students and teachers with free virtual workshops on how to succeed on the ACT
- **Best for All Central** open-source coursework for students and professional development for educators
EDUCATORS

Strategy: TDOE has invested **more than $20M** to address shortages of credentialed teachers and professional development for our educators to ensure all students can get the supports they need.

Focus: **Grow Your Own** programs create pathways to become a teacher for free—enabling future teachers to earn their degree, serve their home communities, maintain employment, and begin Day 1 in with real-world classroom experience.

With $6.5M invested in **over 63 local partnerships**, more than 1,000 future educators and leaders will all earn their credentials for free through Grow Your Own.

**Additional Grow Your Own strategies include:**

- Expanding SPED and ESL endorsements for existing teachers
- Expanding opportunities to become an administrator for free through the Aspiring Assistant Principal and Diverse Leaders Networks
- Launching apprenticeship programs
Best for All District Recognition

- Tennessee has a once-in-a-lifetime opportunity to strategically invest in our students, and urgent academic needs to address on behalf of our children. The department understands the importance of rewarding investments in mission-critical initiatives that are most likely to benefit students.

- Best for All Districts are recognized for deep investment in student achievement.

- Strategically leveraging federal COVID-19 relief funding, Best for All Districts will spend 50% of their ESSER 3.0 award amount on strategies to raise student academic achievement and participate in TN ALL Corps.

- Best for All Districts received financial, operational, celebratory, and resource benefits in appreciation for planned investments to spend their share of the $3.58 billion in federal COVID-19 relief and stimulus funding directly on services, resources and supports that will help students achieve academically.

- Governor Bill Lee announced a Day of Recognition in honor of Best for All Districts on Friday, February 11, 2022. TDOE staff was dispersed all over the state to help celebrate the 67 districts awarded as Best for ALL.
