Agenda

- SPP/APR Context
- Indicator Summary
- Proposed Targets
- Stakeholder Feedback

State Performance Plan (SPP)

Under the Individuals with Disabilities Education Act (IDEA) of 2004, each state is required to annually develop a performance plan evaluating the state's implementation of special education.

- The SPP describes how the state will improve implementation of special education.
- The SPP contains rigorous targets for 17 compliance-based and results-based indicators of performance.
- Targets for these indicators are collaboratively set by the department and stakeholder groups.

Annual Performance Report (APR)

The APR is submitted annually by states to the U.S. Department of Education and details progress toward meeting SPP targets for each indicator.

- The APR includes state data and explanations of data, if necessary.
- The federal fiscal year (FFY) 2020 APR (reporting on the 2020-21 school year), will be submitted on February 1, 2022.
- Tennessee’s SPPs/APRs are available [here](#) under the “Statewide Annual Performance Reports” tab.

Indicator 3B: Regular Assessment Proficiency

- Percentage of children (in grades 4, 8, and high school) with IEPs who are at or above proficiency against grade level academic achievement standards on the statewide assessment in reading or math.
- Data Source: Statewide assessment data compiled and submitted to the United States Department of Education (USDOE) by the Tennessee Department of Education (TDOE) assessment team.

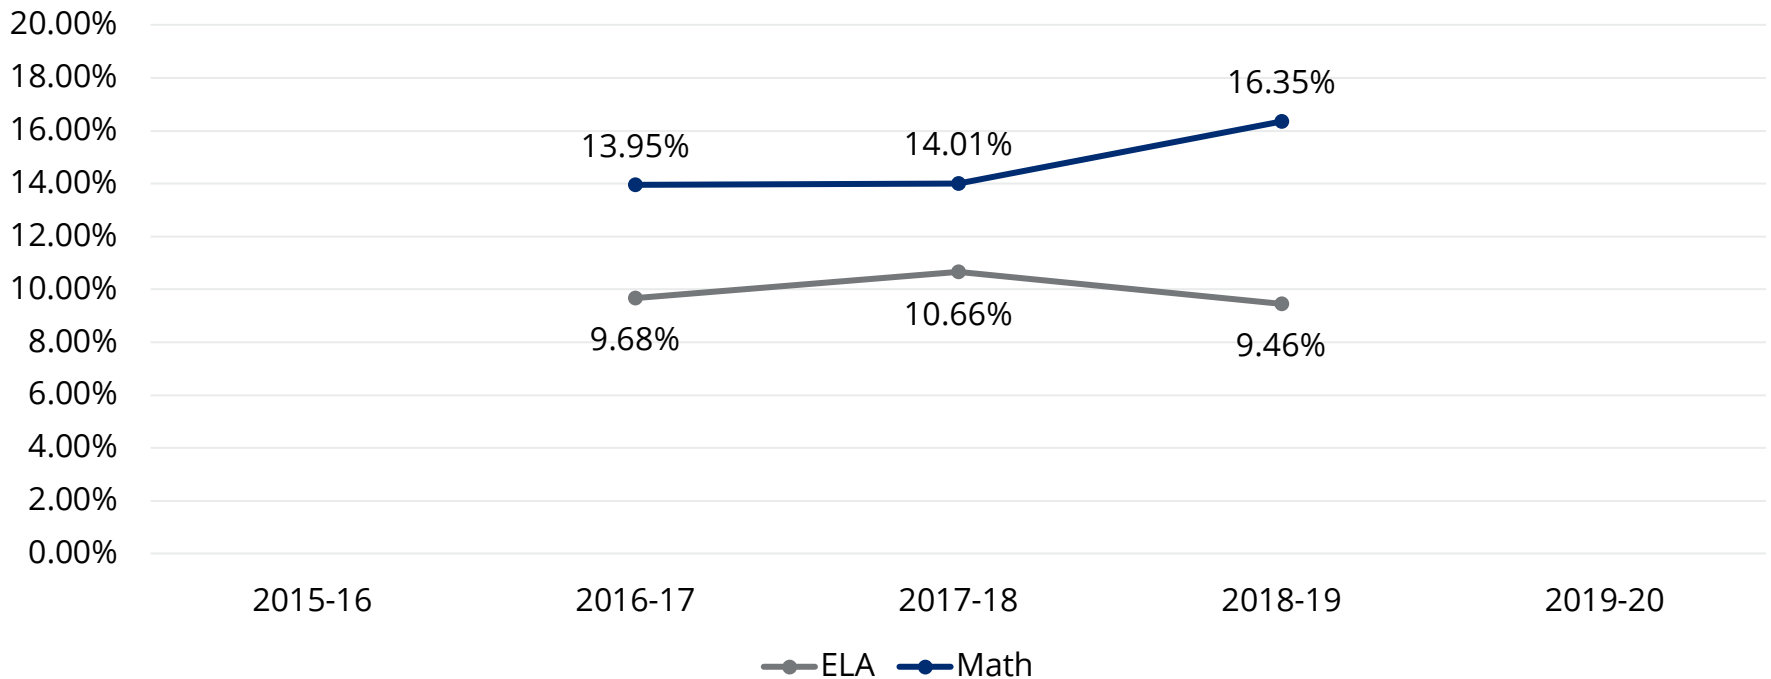

Numerator = Number of students with IEPs who are at or above proficiency on the regular assessment (by grade and subject area).

Denominator = Number of students with IEPs who received a valid regular assessment score.

Five-Year Trend: Grade 4

Grade 4 Regular Assessment Proficiency (by APR Year)

*Due to assessment cancellations in 2015-16 and school closures and assessment waivers in 2019-20, assessment data from those years are incomplete and incomparable to data from the 2016-17 to 2018-19 school years.

Five-Year Trend: Grade 8

Grade 8 Regular Assessment Proficiency (by APR Year)

*Due to assessment cancellations in 2015-16 and school closures and assessment waivers in 2019-20, assessment data from those years are incomplete and incomparable to data from the 2016-17 to 2018-19 school years.

Five-Year Trend: High School

High School Regular Assessment Proficiency (by APR Year)

*Due to assessment cancellations in 2015-16 and school closures and assessment waivers in 2019-20, assessment data from those years are incomplete and incomparable to data from the 2016-17 to 2018-19 school years.

Combined Grades

Combined Regular Assessment Proficiency (by APR Year)

*Due to assessment cancellations in 2015-16 and school closures and assessment waivers in 2019-20, assessment data from those years are incomplete and incomparable to data from the 2016-17 to 2018-19 school years.

Proposed Targets

The proposal is to **increase by 1% annually based on the previous year's data**. Below is an example using a preliminary 2020-21 baseline score and hypothetical future scores:

	Baseline (2020-21)	2021-22	2022-23	2023-24	2024-25	2025-26
Hypothetical Scores	8.9%*	10.5%	10.7%	11.6%	12.8%	13.9%
Hypothetical Target		>=9.9%	>=11.5%	>=11.7%	>=12.6%	>=13.8%
Target Status		<i>Met</i>	<i>Not Met</i>	<i>Not Met</i>	<i>Met</i>	<i>Met</i>

*The baseline calculated here uses preliminary 2020-21 regular assessment scores for ELA in Grade 4 and is for reference purposes. The proposal to increase by 1% annually applies to each grade and subject area.
