DEAFNESS

I. Definition

Deafness means a hearing impairment that is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification that adversely affects a child's educational performance. The child has:

(1) An inability to communicate effectively due to Deafness; and/or
(2) An inability to perform academically on a level commensurate with the expected level because of Deafness; and/or
(3) Delayed speech and/or language development due to Deafness.

II. Evaluation

The characteristics identified in the Deafness Definition are present.

Evaluation Procedures

A comprehensive evaluation performed by a multidisciplinary team using a variety of sources of information that are sensitive to cultural, linguistic, and environmental factors or sensory impairments to include the following:

(1) Audiological evaluation;
(2) Evaluation of speech and language performance;
(3) School history and levels of learning or educational performance;
(4) Observation of classroom performance; and
(5) Documentation, including observation and/or assessment, of how Deafness adversely affects the child's educational performance in his/her learning environment and the need for specialized instruction and related services (i.e., to include academic and/or nonacademic areas).

Evaluation Participants

Information shall be gathered from the following persons in the evaluation of Deafness:

(1) The parent;
(2) The child's general education classroom teacher;
