STUDENT READINESS

TENNESSEE PUBLIC SCHOOLS WILL BE EQUIPPED TO SERVE THE ACADEMIC AND NON-ACADEMIC NEEDS OF ALL STUDENTS IN THEIR CAREER PATHWAYS

EDUCATORS

TENNESSEE WILL SET A NEW PATH FOR THE EDUCATION PROFESSION AND BE THE TOP STATE TO BECOME AND REMAIN A TEACHER AND LEADER FOR ALL

ACADEMICS

ALL TENNESSEE STUDENTS WILL HAVE ACCESS TO A HIGH-QUALITY EDUCATION, NO MATTER WHERE THEY LIVE
Table of Contents

- **PART I:** Overview
- **PART II:** District-Level Data Framework
- **PART III:** TCAP Data Results by District
Part I
Overview
Districts and schools across Tennessee worked incredibly hard during the pandemic to provide services to our students.

Both schools and families demonstrated a shared commitment to finding out how our students are performing by achieving a 95% student participation rate on the statewide Spring 2021 TCAP.

Disruptions to education as a result of the pandemic have led to expected declines in academic proficiency in the state, across all subjects and grade bands. These declines were mitigated as a direct result of the hard work of our educators and families.

While declines in proficiency were expected, families, school systems, and the public need access to information that will help drive strategic decision-making to support accelerating student achievement in the years to come.

Tennessee is well-prepared and will continue to focus on doing what’s best for our kids.
KEY TAKE-AWAYS

• 2020-21 TCAP data shows decreases in students scoring Mastered and On Track and increases in students scoring Approaching and Below.

• While this year’s results track with state projections, Tennessee prevented the severe proficiency drops that some states have experienced due to the pandemic due to the extraordinary efforts of our school systems and families.

• Students whose scores were most negatively impacted were economically disadvantaged students, urban/suburban students, English learners, and students of color.

• Proactive State Solutions:
  2021 Special Legislative Session legislation; Strategic investments in summer programming; Reading 360 initiative; TN ALL Corps; Innovative High Schools; Student Support Grants; Grow Your Own; Family Resources

SOURCE: Tennessee Department of Education, 2021
Declining proficiency rates over the past five years have been a challenge across most student groups. Because children across the state experienced the pandemic differently, learning supports should be tailored and targeted to individual student needs.
Students learning in person were more likely to score **On Track** or **Mastered**. Tennessee districts did exceptional work to keep school buildings open; however, even students attending in person may have missed classroom learning time due to quarantine, demonstrating the widespread impact of the pandemic.
Context for 2020-21 Spring TCAP

• The models “In person”, “Hybrid”, and “Remote” represent the primary operating model used in each district for the 2020-21 school year, as reported to the Tennessee Department of Education via the COVID-19 District Information Dashboard.

• Student groups within districts may not have participated in TCAP assessments at the same rate.

• These analyses do not include the results of TCAP-Alt assessments (for students with the most significant learning disabilities.)
KEY TAKE-AWAYS

- 3 in 10 Tennessee students are meeting grade level expectations in English Language Arts (ELA).
- Overall proficiency in ELA dropped 5 points from 2019.
- **Proactive State Solutions:** Summer Programming; TN Literacy Success Act and Reading360; TN ALL Corps; personalized reading supports with district networks

ALL STUDENTS OVERVIEW

![Graph showing percentage of students meeting grade level expectations in ELA from 2016 to 2021.]

**SOURCE:** Tennessee Department of Education, 2021
KEY TAKE-AWAYS

• In ELA, 2nd & 3rd grades scores show large increases in students scoring Below.
  • The rate of 2nd graders scoring Below increased 68%
  • The rate of 3rd graders scoring Below increased 47%

• Students scoring Below in 2nd and 3rd grades are typically those who are not able to read proficiently.

• The largest categorical drops in ELA across each test were in writing and conventions of writing.

SOURCE: Tennessee Department of Education, 2021
1 in 4 Tennessee students is meeting grade level expectations in math.

- Consistent with national trends, math saw the sharpest declines of any subject area besides science, as projected. Overall proficiency dropped 12 points from 2019.

- The greatest drops across subject areas were understanding and using mathematical notation to describe quantitative relationships and situations.

- Proactive State Solutions:
  Investments in math adoption and instructional resources; TN ALL Corps tutoring supports; personalized online math and reading supports for students.

SOURCE: Tennessee Department of Education, 2021
**KEY TAKE-AWAYS**

- Overall 3rd grade proficiency declined from 44% in 2019 to 31% in 2021. Overall 4th grade proficiency declined from 46% in 2019 to 34% in 2021.

- In middle school, districts on average saw the number of students in the **Below** category increase by 50%. Students in remote instruction saw **proficiency rates decrease at twice the rate** of students in person.

- There was general stability in **Approaching**, but significant increases in the percent of students scoring **Below**.

**SOURCE:** Tennessee Department of Education, 2021
Part II
District-Level Data Framework
3rd grade scores show large increases in students scoring Below.

On average, districts see the rate of students scoring Below increasing by 48%.

1 in 4 MIDDLE SCHOOL STUDENTS in Tennessee is on track in math.

MATH SAW SOME OF THE SHARPEST DECLINES of any subject area, as projected by the department.

On average, districts saw the number of students in the Below category increase by 50%.

This release includes only high school TCAP participation data from Spring 2021 and not Fall 2020, therefore, it is more appropriate for local districts to highlight high school information. Further, statewide high school participation rates were lower than those of elementary and middle schools, making longitudinal comparisons more difficult.
KEY TAKE-AWAYS

• Proficiency rates in 3rd grade ELA declined 38% in 2019 to 32% in 2021.

• In 2020-21, stable trends in students scoring Mastered, with more students shifting from On-Track to Approaching.

• Data show disproportionate increases in students scoring Below.

• Data show the most negative impacts for economically disadvantaged students, urban/suburban students, English learners, and students of color.

SOURCE: Tennessee Department of Education, 2021
**KEY TAKE-AWAYS**

- Proficiency rates in 7th grade math declined from 34% in 2019 to 24% of 7th graders in 2021, which is a significant concern related to Algebra-readiness.

- There were slight declines in students scoring **Mastered**, with significant declines in those scoring **On-Track**.

- There was no change in **Approaching** and significant declines in **Below**, which reflects that more grade-level instruction is needed.

- **Low-income** students, **urban/suburban** students, **English learners**, and **students of color** were most negatively impacted.

*SOURCE: Tennessee Department of Education, 2021*
Each district slide series includes the:

A. Subject / Grade levels:
   - ELA: Grade 3
   - MATH: Grade 7

B. School district name.

C. Primary operating model reported by each district for the 2020-21 school year.

D. District’s participation rate for the 2021 TCAP Spring test administration.

E. Data over time for how the district performed in the subject / grade vs. how the state performed.

F1. Data over time for how various student groups performed in the subject and grade.

F2. Example of a "broken line" due to data masking for fewer than 10 students in group in a particular year.

G1. Proficiency percentages (rates of students who score either “On Track” or “Mastered”) from the 2020-21 TCAP test administration for all eligible Tennessee students and students in the district.

G2. Example of a data set that indicates suppression will have asterisks (**)

H. Special comments and caveats related to the district’s data (where applicable).

IMPORTANT! Student data is masked (or suppressed) when they represent less than ten students in a student group for a district, potentially making data appear incomplete or as gaps on charts.
Understanding the Data

- **Understanding who tested helps to understand trends.**
  - Proficiency rates only include students who received a valid TCAP score.
    - Students not participating are not represented in proficiency rates.
    - Participation rates varied across districts, and generally, students who did not test this spring are more likely to be low performers.
  - Varying participation rates make local context an important consideration when reviewing results.
    - Participation rates below 95% indicate participation lower than the expectations of a typical year.
  - Tennessee students experienced the effects of the pandemic differently.
    - It is critical to examine the variation of learning across, especially groups of students who might have been more negatively impacted by the pandemic (e.g., Economically disadvantaged students, Students with disabilities, etc.)
  - When groups of students are small, changes to a few students could result in large change in participation or proficiency rates of their group.
    - Typically, a minimum of 10 students need to participate to have performance reported.

- **Understanding the testing helps to understand trends.**
  - As Tennessee's Academic standards and TCAP have been updated over the past 10 years, some proficiency rates may experience change as well.

For Educators, Find and Learn from an Exemplar
   – Find similar districts that saw better changes to student outcomes.
     • What can I learn from them? How can I learn from their experiences to help my students?

For Families, the Data are a Starting Point
   – Identify, using your student’s data, whether your student’s experience mirrors the experience of the district to start a conversation about opportunities to learn at your school.
     • How can I work with my school to ensure my students are on track to achieve their goals?
Assessment Data is Different than Accountability

- These results contain just TCAP assessment data.
- Assessment is about measuring and reporting on the *performance of students*.
- Assessment data is reported for all kids, because we need to know how all our kids are doing.
- Accountability data is about measuring and reporting on the *performance of school systems* and includes assessment data among many other measures.
State Framework for Response

The Tennessee Department of Education will operate with a forward-looking, proactive, and optimistic lens, based on what is possible for students. The state response is firmly rooted in our strategic plan for education, Best for All.

**ACADEMICS**
A strong focus on early literacy and math, with additional learning time delivered through high-dosage tutoring and summer programming.

**STUDENT READINESS**
Providing students with the pathways and supports they need through innovative high schools and access to advanced courses and non-academic supports.

**EDUCATORS**
Eliminate teacher vacancies and support strong professional growth and learning through Grow Your Own programs and opportunities.
**TCAP Administration Successes**

**SPRING 2019**
Smooth full TCAP administration.
Smooth online administration of high school End of Course (EOC) and science exams.

**FALL 2019**
Successful paper-based EOC administration with new assessment vendor.

**FALL 2020**
Successful high school EOC administration, despite COVID challenges.
Spring 2020 testing was suspended for all grades.

**SPRING 2021**
Successful full TCAP administration.
Strong 95% statewide student participation rate due to testing flexibilities and the efforts of schools and districts.
