STUDENT READINESS
TENNESSEE PUBLIC SCHOOLS WILL BE EQUIPPED TO SERVE THE ACADEMIC AND NON-ACADEMIC NEEDS OF ALL STUDENTS IN THEIR CAREER PATHWAYS

ACADEMICS
ALL TENNESSEE STUDENTS WILL HAVE ACCESS TO A HIGH-QUALITY EDUCATION, NO MATTER WHERE THEY LIVE

EDUCATORS
TENNESSEE WILL SET A NEW PATH FOR THE EDUCATION PROFESSION AND BE THE TOP STATE TO BECOME AND REMAIN A TEACHER AND LEADER FOR ALL
Special Recognition

Thank you to Governor Bill Lee, state legislators, districts, schools, teachers, partners, families and communities for being proactive in making education a priority in Tennessee.

Tennessee has led the nation and already put strategic measures in motion to combat predicted negative impacts resulting from the COVID-19 pandemic.

Together, educators and families have made tremendous efforts to support children and keep on pace. While it will take time to see the full payoffs of these efforts, Tennesseans have demonstrated their commitment to accelerating student achievement.

Now is the time for all Tennesseans to keep focused on doing what it takes to support our students and set them on a path to success.
Table of Contents

- PART I: TCAP Administration and State Data
- PART II: Academic Impact
- PART III: Response, Recovery and the Path Forward
PART I
TCAP Administration and State Data
Districts and schools across Tennessee worked incredibly hard during the pandemic to provide services to our students.

Both schools and families demonstrated a shared commitment to finding out how our students are performing by achieving a 95% student participation rate on the statewide Spring 2021 TCAP.

Disruptions to education as a result of the pandemic have led to expected declines in academic proficiency in the state, across all subjects and grade bands. These declines were mitigated as a direct result of the hard work of our educators and families.

While declines in proficiency were expected, families, school systems, and the public need access to information that will help drive strategic decision-making to support accelerating student achievement in the years to come.

Tennessee is well-prepared and will continue to focus on doing what’s best for our kids.
The Tennessee Department of Education will operate with a forward-looking, proactive, and optimistic lens, based on what is possible for students. The state response is firmly rooted in our strategic plan for education, Best for All.

**State Framework for Response**

**ACADEMICS**
A strong focus on early literacy and math, with additional learning time delivered through high-dosage tutoring and summer programming.

**STUDENT READINESS**
Providing students with the pathways and supports they need through innovative high schools and access to advanced courses and non-academic supports.

**EDUCATORS**
Eliminate teacher vacancies and support strong professional growth and learning through Grow Your Own programs and opportunities.
TCAP Administration Successes

**SPRING 2019**
- Smooth full TCAP administration.
- Smooth online administration of high school End of Course (EOC) and science exams.

**FALL 2019**
- Successful paper-based EOC administration with new assessment vendor.

**FALL 2020**
- Successful high school EOC administration, despite COVID challenges.
  - Spring 2020 testing was suspended for all grades.

**SPRING 2021**
- Successful full TCAP administration.
  - Strong 95% statewide student participation rate due to testing flexibilities and the efforts of schools and districts.
The models “In person”, “Hybrid”, and “Remote” represent the primary district operating models for the 2020-21 school year, as reported to the Tennessee Department of Education via the COVID-19 District Information Dashboard.

Not all districts had proportionate representation of student groups participating in assessments.

These analyses do not include the results of TCAP-Alt assessments (for students with the most significant learning disabilities.)
Efforts to Maximize Student Participation in TCAP

✓ **Offered flexibility in test administration** as a result of the disruptions due to COVID-19
  • Expanded available use of off-site testing locations
  • Increased flexibility for local testing schedules
  • Provided guidance to support a larger number of assessment proctors
  • Enhanced guidance on Medical Exemptions for COVID-impacted students

✓ Dramatically increased choice within **expanded test administration** windows
  • Expanded TCAP window options, with three times more calendar days to work with than any prior year
  • Provided for student make-ups across testing windows, for greater flexibility and access
  • Allowed extensions and provided additional testing options for all state tests, including WIDA and ACT

✓ **Maintained robust customer service**, including guides and resources to support districts
  • Supported maximizing participation through toolkits and checklists documents
  • Provided peer support and highlighted profiles of real-time district solutions
  • Developed sample communications and social media tools
  • Hosted daily webinars, office hours, weekly updates, virtual trainings to support districts

✓ Worked with many **districts to set and meet clear participation rate goals**
  • Increased communications with parents
  • Set clear goals and tactics, customized by school and community
  • Co-created ways to incorporate positivity, joy, and celebrations surrounding testing activities
Student Participation

State TCAP Participation Rate

95%

100% of DISTRICTS MET THE 80% “hold harmless” target

*Breakdown of data in Appendix
COMBINED PROFICIENCY

OVERVIEW: ALL STUDENTS, GRADES & SUBJECTS

KEY TAKE-AWAYS

• 2020-21 TCAP data shows decreases in students scoring Mastered and On Track and increases in students scoring Approaching and Below.

• While this year’s results track with state projections, Tennessee prevented the severe proficiency drops that some states have experienced due to the pandemic due to the extraordinary efforts of our school systems and families.

• Students whose scores were most negatively impacted were economically disadvantaged students, urban/suburban students, English learners, and students of color.

• Proactive State Solutions:
  2021 Special Legislative Session legislation; Strategic investments in summer programming; Reading 360 initiative; TN ALL Corps; Innovative High Schools; Student Support Grants; Grow Your Own; Family Resources

SOURCE: Tennessee Department of Education, 2021
Declining proficiency rates over the past five years have been a challenge across most student groups. Because children across the state experienced the pandemic differently, learning supports should be tailored and targeted to individual student needs.
Students learning in person were more likely to score **On Track** or **Mastered**. Tennessee districts did exceptional work to keep school buildings open; however, even students attending in person may have missed classroom learning time due to quarantine, demonstrating the widespread impact of the pandemic.

SOURCE: Tennessee Department of Education, 2021
KEY TAKE-AWAYS

- 3 in 10 Tennessee students are meeting grade level expectations in English Language Arts (ELA).

- Overall proficiency in ELA dropped 5 points from 2019.

- **Proactive State Solutions:** Summer Programming; TN Literacy Success Act and Reading360; TN ALL Corps; personalized reading supports with district networks

**ALL STUDENTS OVERVIEW**

SOURCE: Tennessee Department of Education, 2021
KEY TAKE-AWAYS

• In ELA, 2nd & 3rd grades scores show large increases in students scoring Below.
  • The rate of 2nd graders scoring Below increased 68%
  • The rate of 3rd graders scoring Below increased 47%
• Students scoring Below in 2nd and 3rd grades are typically those who are not able to read proficiently.
• The largest categorical drops in ELA across each test were in writing and conventions of writing.

OVERVIEW

SOURCE: Tennessee Department of Education, 2021
KEY TAKE-AWAYS

1 in 7 economically disadvantaged students is meeting grade level expectations in English Language Arts.

RESULTS BY INCOME

ECONOMICALLY DISADVANTAGED

2017: 17% Below, 50% On Track, 32% Mastered
2018: 17% Below, 52% On Track, 30% Mastered
2019: 2% Below, 50% On Track, 31% Mastered
2021: 1% Below, 53% On Track, 33% Mastered

ALL OTHER STUDENTS

2017: 8% Below, 35% On Track, 13% Mastered
2018: 6% Below, 44% On Track, 14% Mastered
2019: 8% Below, 46% On Track, 14% Mastered
2021: 4% Below, 48% On Track, 14% Mastered

SOURCE: Tennessee Department of Education, 2021
ELA proficiency rates dropped 4 - 6 points across racial and ethnic lines. Achievement gaps present before the pandemic have persisted or widened.
SPOTLIGHT: GRADE 2 ELA

*Grade 2 ELA TCAP is an optional test and data represents about half of all TN 2nd grade students.*

**KEY TAKE-AWAYS**

- Districts report that the **youngest students struggled the most with remote learning.**

- While all grade levels’ performance in ELA decreased, the **drop was most significant in 2nd grade TCAP**.

- These declines suggest that the state-required **universal screening data for reading**, to begin being reported in Fall 2021, will be critical for educators to screen and diagnose gaps for our youngest learners.

- **Proactive State Solutions:** Strong investments in summer programming; Reading 360 initiative with family resources; TN ALL Corps tutoring supports; personalized online math and reading supports for students; district support networks.

SOURCE: Tennessee Department of Education, 2021
ALL STUDENTS OVERVIEW

KEY TAKE-AWAYS

1 in 4 Tennessee students is meeting grade level expectations in math.

• Consistent with national trends, **math saw the sharpest declines** of any subject area besides science, as projected. Overall proficiency dropped 12 points from 2019.

• The greatest drops across subject areas were **understanding and using mathematical notation** to describe quantitative relationships and situations.

• **Proactive State Solutions:**
  Investments in math adoption and instructional resources; TN ALL Corps tutoring supports; personalized online math and reading supports for students.

SOURCE: Tennessee Department of Education, 2021
OVERVIEW

KEY TAKE-AWAYS

- Overall 3rd grade proficiency declined from 44% in 2019 to 31% in 2021. Overall 4th grade proficiency declined from 46% in 2019 to 34% in 2021.

- In middle school, districts on average saw the number of students in the Below category increase by 50%. Students in remote instruction saw proficiency rates decrease at twice the rate of students in person.

- There was general stability in Approaching, but significant increases in the percent of students scoring Below.
1 in 10 economically disadvantaged students is meeting grade level expectations in math.

**KEY TAKE-AWAYS**

- Black students were most impacted in math, with 67% scoring Below and 9% meeting grade level expectations.
- Hispanic and Asian students had 12 and 13 percentage point declines, respectively, from 2019.
- White students experienced an 11-percentage point decline overall from 2019.

*SOURCE: Tennessee Department of Education, 2021*
ALL STUDENTS OVERVIEW

KEY TAKE-AWAYS

- Proficiency rates dropped by a third in science, with 38% of TN students demonstrating proficiency.

- Drops in science were larger for students receiving remote instruction.

- Proactive State Solutions: Ongoing partnership with TSIN to expand STEM designated schools; programming on PBS; expanded STREAM programming in Tennessee summer camps

*There were no operational science tests administered in 2019.*
**OVERVIEW**

**SCIENCE**

**KEY TAKE-AWAYS**

- Proficiency rates dropped by 30% in elementary, 40% in middle and 18% in high school.

- The largest decline was in middle school, which decreased from 62% to 36% of students performing at On Track or Mastered between 2017 and 2021.

- **Proactive State Solutions:** Ongoing partnership with TSIN to expand STEM designated schools; programming on PBS; expanded STREAM programming in Tennessee summer camps.

*There were no operational science tests administered in 2019.*

SOURCE: Tennessee Department of Education, 2021
RESULTS BY STUDENT GROUPS

Overall, every student group saw declines in science proficiency from 2019. Black, Hispanic, and economically disadvantaged students and English Learners saw large proficiency declines from 2017.

*There were no operational science tests administered in 2019.

SOURCE: Tennessee Department of Education, 2021
Key Take-Aways

- Overall social studies proficiency has increased since 2017, from 30% to 36% in 2021.

- This data saw fewer declines (3 points) than other content areas and maintains performance from statewide increases that began in 2018, when standards were updated.

- Proactive State Solutions: Expanded resources on Best for ALL Central; the Governor's Civic Seal program.

*Social Studies standards were updated and standard-setting redone in 2018.*

Source: Tennessee Department of Education, 2021
KEY TAKE-AWAYS

- Proficiency rates dropped by 4 percentage points in middle school social studies.
- Proficiency rates **increased** by 4 percentage points in high school.
- **Proactive State Solutions:** Expanded resources on Best for ALL Central; the Governor’s Civic Seal program.

*Social Studies standards were updated and standard-setting redone in 2018.
### Social Studies Results by Student Groups

Overall, most student group saw declines in social studies proficiency from 2019, but generally maintained the growth that began in 2018.

SOURCE: Tennessee Department of Education, 2021
PART II

Academic Impact
How to Use the Data

- This data provides a state-level overview of student performance. Every district is different, and trends may vary at the local level. Any interpretation of state level data should reflect a consideration for variations in local context, district participation rates, as well as other assessment data and performance indicators that will be available.*

- The expected declines noted as a result of disruptions caused by the pandemic should create a sense of urgency in every district and school to consider the academic interventions necessary to support students. This data can be used to help communities reflect on strategic investments in student achievement and support necessary revisions to a district’s needs assessment for the purposes of planning federal recovery (ESSER) funding.

- School systems, teachers, and families should use this and other relevant student data to develop individualized plans for every student who may require additional support to reach grade-level proficiency, or to maintain the rate of acceleration she or he would otherwise have had.

* The TDOE utilizes longitudinal, state-level data from a state level because of our strong participation rate. For some districts, these types of longitudinal comparisons may not be appropriate, given a larger difference in participation year-to-year.
Academic Projections & Recovery

- Original projections of the academic impact were provided in fall of 2020.* Those projections are generally reflected in the current data.

- 20-21 TCAP data show sharp declines in math, but typically, math proficiency results fall-- and climb--faster than ELA.**

- The effects of falling behind are most pronounced in the youngest grades, especially in ELA.***

- Economically disadvantaged students feel the effects of learning loss more acutely.****

- Recovery and acceleration will take time, but collaborative, proactive solutions are already underway.

* Tennessee Releases Data Showing Significant Learning Loss Among K-12 Students
**Collaborative-Brief_Covid19-Slide-APR20.pdf (nwea.org) The Effects of Summer Vacation on Achievement Test Scores: A Narrative and Meta-Analytic Review on JSTOR
***The Potential Impact of COVID-19 on Student Learning and How Schools Can Respond - Wyse - 2020 - Educational Measurement: Issues and Practice - Wiley Online Library
****Introduction (harvard.edu)

SOURCE: Tennessee Department of Education, 2021
Continuous Learning Plans Report

Districts participating in the CLP End of Year Report cited challenges that could have impacted student learning and achievement this year, including but not limited to:

- **Engaging students** who learned in remote environments
- **Balancing the demands** of providing strong academic instruction to students learning both in-person and remotely
- **Meeting the needs** of our most vulnerable learners in remote environments
Early Elementary Reading/ELA is an area of concern, especially in those grades that do not have assessments or where public data is not shared. Significant declines are likely in kindergarten, 1st and 2nd grade reading, which creates more urgency in providing these students with additional literacy supports to ensure they are on-track to reading proficiently by 3rd grade.

While math overall is a concern, middle school math is especially problematic. In 2020-21, fewer students demonstrated readiness for Algebra I (in addition to fewer students taking the Algebra I assessment), and these declines will potentially create long-term challenges with other high school courses that require a strong foundation in Algebra as well as ACT performance (therefore scholarship eligibility and post-secondary readiness).

Widening achievement gaps between student groups are clear, exacerbating a historical gap that has not significantly closed even as the state had seen performance increases. Specifically, economically disadvantaged students saw significant declines in proficiency, which has traditionally been more difficult to recover from. Students with Disabilities and English learners also reflected increased challenges as a result of the pandemic disruptions.
What to Do about the Data

- Provide instruction using **grade-level-appropriate content**, rather than repeating material from the end of the prior grade. Build-in the pre-requisite skills and knowledge as is needed to understand the content of the school year.

- **Measure learning regularly and provide feedback to students often.** It is important that teachers have the tools and information to best meet the needs of their students, and the state has provided a free universal reading screener and other free diagnostic assessments to support teachers and districts.

- Use time and resources for high-impact supports for students most in need, such as **high-dosage/low-ratio tutoring or extra time** outside of regular class.

- Understand that the recovery period from the pandemic and prior declines in academic achievement is likely to take 3 – 5 years, and districts should **maximize federal relief spending on student academic acceleration**.
ENGAGING FAMILIES: TCAP FAMILY PORTAL

TCAP Family Portal is a free, online resource to help families and students understand their TCAP results. Specifically, the portal provides families with access to:

- Test history features to track progress over time
- TCAP scale scores and performance levels by subject
- Parent guides and resources
- Individualized recommendations for improvements

Families can access this resource by registering at familyreport.tnedu.gov.
Data Timelines and Requests

DATA AVAILABILITY
Official data used for accountability reporting is subject to a district appeals process and embargo period.

ACCOUNTABILITY TIMELINE
The accountability timeline is available to districts within the accountability application.

DATA REQUESTS PROCESS
Specific additional data requests should be submitted via the Data Request Form on the department’s website.
2020-21 TDOE Pandemic Response & Actions

**Crisis management & response**

School closure and reopening guidance documents

**Weekly communication with district leaders**

Statewide investments, resources & partnerships

200+
Tennessee Governor Bill Lee called a Special Legislative Session on Education

The January 2021 special session addressed accountability, learning loss, literacy, and teacher pay.

“We know that the COVID-19 pandemic has caused immense disruption for Tennessee’s students, educators, and districts, and the challenges they face must be addressed urgently.”
- Governor Bill Lee
Summer Programming Actions

- During the special session, the Tennessee General Assembly passed the Tennessee Learning Loss Remediation and Student Acceleration Act, which set forward a path for students to receive additional instructional time and supports through summer programming opportunities beginning in summer 2021.

- During the Accelerating TN 2021 Tour, Commissioner Schwinn, department staff, state and local elected officials, and community partners connected directly with students, educators, and stakeholders this summer to learn more about how schools are accelerating student achievement and where additional supports and resources could be helpful.

Summer Programming Actions

- 2,600 TOTAL MILES
- 50 DISTRICTS
- 43 SUMMER LEARNING SCHOOL VISITS
- 15 ROUND TABLES
- 2 EARLY READING TRAININGS

RISING GRADE: 1 2 3 4 5 6 7 8
Historic Federal Funds for K-12 Education

Tennessee public schools will receive over $4.5 BILLION in federal relief funding for use between spring 2020 & fall 2024.

- Over $150M in Coronavirus Relief Funds (CRF), including PPE
- Over $45M in competitive federal grants for literacy, CCTE, and mental health resources
- Over $126M in GEER (Governor’s discretionary relief funding)
- Over $385M in ESSER (SEA discretionary relief funding)
- ...in addition to over $3.58 billion passed directly to LEAs
State ESSER Plan: Investments Aligned to Data

ACADEMICS: All TN students will have access to a high-quality education... by learning to read and reading to learn with high-quality materials.
- $120.7M for the Literacy Success Act & Reading360
- $170.5M for the TN ALL Corps & summer programming*
- $35M to support the 2022-23 math adoption
- $32M for teaching & learning online resources & improvements for LEAs

STUDENT READINESS: TN schools will be equipped to serve the academic and non-academic needs of all students... by developing robust career pathway opportunities and connecting students to real-time support.
- $32.6M for Innovative High Schools & Advanced Courses
- $17.8M for Mental Health & Family Resource Centers
- $56.5M for K-12 open-source readiness coursework & statewide professional development

EDUCATORS: TN will set a new path for the education profession... by becoming a teacher for free.
- $21M in programs to support the educator pipeline, including department’s Grow Your Own program

Received approval on ARP ESSER State Plan from U.S. Ed on 7/15/21
Investing to Address the Data

**Strategy:** TDOE will invest more than $358M in academic supports focusing on early elementary reading, middle school math, closing achievement gaps, and supporting students not on grade level.

**Focus:** TDOE is focused on literacy and early reading and high-dosage, low-ratio tutoring as the most research-driven ways to support students who need more individualized supports to reach grade level mastery.

To address early literacy and the needs of students not yet on grade level, strategies include providing resources to teachers and parents, professional development to school systems, targeted instruction for students, and strong partnerships with families and communities across the state.

Programs and supports include:

- **Reading 360** supports for our youngest readers
- **TN ALL Corps** tutoring resources for K – 12th grade students
- **Best for All Central** website for all students, families and educators
**STUDENT READINESS**

Investing to Address the Data

**Strategy:** TDOE will invest **more than $106M** to provide all students with access to the courses, programs and supports they need to achieve, by tackling achievement gaps, redesigning high schools, and preparing students for post-secondary persistence.

**Focus:** TDOE is focused on **Innovative High Schools** and student supports to help ensure all students have the opportunity they deserve to excel in the career pathways of their choice.

With more than $30M invested, **21 school districts will be launching public-private partnerships** to help prepare high schoolers for jobs and careers in their local communities.

Additional programs and supports include:

- **AP Access for All** program to help more students earn college credit while in high school
- **ACT Prep** program to provide all Tennessee high school students and teachers with free virtual workshops on how to succeed on the ACT
- **Best for All Central** open-source coursework for students and professional development for educators
EDUCATORS

Investing to Address the Data

Strategy: TDOE will invest more than $20M to address shortages of credentialed teachers and professional development for our educators to ensure all students can get the supports they need.

Focus: Grow Your Own programs create pathways to become a teacher for free— enabling future teachers to earn their degree, serve their home communities, maintain employment, and begin Day 1 in with real-world classroom experience.

With $6.5M invested in over 63 local partnerships, more than 1,000 future educators and leaders will all earn their credentials for free through Grow Your Own.

Additional Grow Your Own strategies include:

- Expanding SPED and ESL endorsements for existing teachers
- Cultivating Aspiring Assistant Principal and Diverse Leaders Networks to become an administrator for free
- Pursuing innovative emerging work related to apprenticeships
Upcoming Research Work

- Reading 360 Research Center
- Tennessee Educator Survey Findings
- ACT Preliminary Research
- National ESSER Research Steering Committee
District ESSER Reporting Requirements

**TDOE’s School Model & Attendance Dashboard**
- Report Learning model (by district)
- Report Learning model (by school)
- Student groups identified by USDOE

**Health & Safety Data**
- Report by student group and grade level

**Federal Relief Planning**
- Include meaningful engagement with the community in plans
- Utilize a Needs Assessment
- Publicly report on strategic investments of all federal relief funding

**Academics Data**
- Report all ESSER-funded activities by student group, grade level, input and outcome data

**Student Readiness Data**
- Report all ESSER-funded activities by student group, grade level, input and outcome data

**Educators Data**
- Report all ESSER-funded activities by student group, grade level, input and outcome data
Local Planning & Urgency

Understand what is needed for students to access grade-level content over the next 3 years.

Ascertain the academic and other needs to students and staff.

Design a multi-year LEA recovery plan aligned to maximizing the funds to boost academic achievement.

Implement the plan with a strong focus on a few large, high-quality initiatives with clear processes for data collection.

Monitor, Evaluate and Adjust based on the results of data collection and feedback from students and staff.
Best for All Recognition Program

Tennessee has a once-in-a-lifetime opportunity to strategically invest in our students, and urgent academic needs to address on behalf of our children. The department understands the importance of rewarding investments in mission-critical initiatives that are most likely to benefit students.

What is a Best For All District (or charter school)?

- Best For All Districts are those organizations that have strategically planned for and invested in ways that are likely to accelerate student achievement.

How do you qualify to become a Best For All District (or charter school)?

- To qualify, districts must complete basic application assurances that the district will:
  - Participate in the TN ALL Corps for at least 2 of the 3 years
  - Spend 50% of the district’s ESSER 3.0 award amount on proven/research-based strategies to raise student academic achievement (inclusive of TN ALL Corps and demonstrated on the district’s public ESSER plan)
Next Steps & Recommendations

• TCAP results demonstrate an urgent need to support Tennessee’s students and continue the incredible efforts demonstrated throughout the pandemic.

• **Districts, school boards, principals, teachers, elected officials, community partners, and parents and families**-- review your TCAP assessment data to identify any strategies to use at home in addition to additional supports provided at the school level.

• Tennessee is well-prepared and will continue to work hard to accelerate academic achievement and ensure the best for all our kids.
Thank You!

Appendix: Data Slides
KEY TAKE-AWAYS

- Proficiency rates in 3rd grade ELA declined 38% in 2019 to 32% in 2021.

- In 2020-21, stable trends in students scoring Mastered, with more students shifting from On-Track to Approaching.

- Data show disproportionate increases in students scoring Below.

- Data show the most negative impacts for economically disadvantaged students, urban/suburban students, English learners, and students of color.

SOURCE: Tennessee Department of Education, 2021
KEY TAKE-AWAYS

• Proficiency rates in 4th grade ELA declined from 34% in 2019 to 33% in 2021.

• Slight declines in students scoring Mastered, however this has traditionally been a low percentage of students. These students shifted to On-Track.

• There was general stability in Approaching and Below.

• Low-income students, urban/suburban students, English learners, and students of color were most negatively impacted.

SOURCE: Tennessee Department of Education, 2021
KEY TAKE-AWAYS

• Proficiency rates in 5th grade ELA declined from 36% in 2019 to 29% in 2021.

• Slight declines in students scoring **Mastered**, however this has traditionally been a low percentage of students. These students shifted to **On-Track**.

• There was general stability in **Approaching** and **Below**.

• Low-income students, **urban/suburban** students, **English learners**, and **students of color** were most negatively impacted.

SOURCE: Tennessee Department of Education, 2021
KEY TAKE-AWAYS

• Proficiency rates in 6th grade ELA declined from 33% in 2019 to 27% in 2021.

• 2% of students scored at Mastered. Declines observed in students scoring On-Track, with those students shifting to Approaching.

• There was a significant increase in students scoring at Approaching, with Below relatively unchanged.

• Low-income students, urban/suburban students, English learners, and students of color were most negatively impacted.
KEY TAKE-AWAYS

• Proficiency rates in 7th grade ELA declined from 34% in 2019 to 26% in 2021. 2% of students scored at Mastered.

• Like 6th grade, declines observed in students scoring On-Track, with those students shifting to Approaching.

• There was also a similarly significant increase in students scoring at Approaching, with Below relatively unchanged.

• Low-income students, urban/suburban students, English learners, and students of color were most negatively impacted.

SOURCE: Tennessee Department of Education, 2021
KEY TAKE-AWAYS

- Proficiency rates in 8th grade ELA declined from 28% in 2019 to 23% in 2021.

- 1% of students scored at Mastered, after consistent declines over the last 5 years. Slight declines reflected in students scoring On-Track.

- There was a slight increase in students scoring at Approaching, with further increases in students scoring at Below.

- Low-income students, urban/suburban students, English learners, and students of color were most negatively impacted.

SOURCE: Tennessee Department of Education, 2021
KEY TAKE-AWAYS

- English I and English II remained relatively stable, with typical fluctuations noted between years.

- Low-income students, urban/suburban students, English learners, and students of color were most negatively impacted.

SOURCE: Tennessee Department of Education, 2021
• Proficiency rates in 3rd grade math declined from 44% in 2019 to 31% in 2021.

• Disproportionate decreases in students scoring Mastered and On-Track.

• Disproportionate increases in students scoring Below.

• Low-income students, urban/suburban students, English learners, and students of color were most negatively impacted.
KEY TAKE-AWAYS

• Proficiency rates in 4th grade math declined from 46% in 2019 to 34% in 2021.

• There were declines in students scoring Mastered with significant declines in those scoring On-Track.

• There was general stability in Approaching, but significant increases in the percent of students scoring Below.

• Low-income students, urban/suburban students, English learners, and students of color were most negatively impacted.
KEY TAKE-AWAYS

- Proficiency rates in 5th grade math declined from 46% in 2019 to 31% in 2021.

- There were declines in students scoring **Mastered**, with significant declines in those scoring **On-Track**.

- There was general stability in **Approaching**, but significant increases in the percent of students scoring **Below**.

- **Low-income** students, **urban/suburban** students, **English learners**, and **students of color** were most negatively impacted.
MATH

MIDDLE SCHOOL

GRADE 6

KEY TAKE-AWAYS

- Proficiency rates in 6th grade math declined from 40% in 2019 to 27% in 2021.

- There were slight declines in students scoring Mastered, with significant declines in those scoring On-Track.

- There was general stability in Approaching, but significant increases in the percent of students scoring Below.

- Low-income students, urban/suburban students, English learners, and students of color were most negatively impacted.
KEY TAKE-AWAYS

- Proficiency rates in 7th grade math declined from 34% in 2019 to 24% of 7th graders in 2021, which is a significant concern related to Algebra-readiness.

- There were slight declines in students scoring Mastered, with significant declines in those scoring On-Track.

- There was no change in Approaching and significant declines in Below, which reflects that more grade-level instruction is needed.

- Low-income students, urban/suburban students, English learners, and students of color were most negatively impacted.

SOURCE: Tennessee Department of Education, 2021
In 8th grade math, there were significant declines in On-Track and increases in students scoring Below.

Note: Fewer students took the Algebra I assessment, which reflects a higher concentration of historically high-performing students. Even then, there were still declines in overall proficiency.

KEY TAKE-AWAYS

- In elementary science, proficiency rates dropped from 56% in 2018 to 39% in 2021.

- There were declines in students scoring Mastered and On Track.

- There was an increase in students scoring Approaching and a slight increase in students scoring Below.

*There were no operational science tests administered in 2019.*

SOURCE: Tennessee Department of Education, 2021
In science, the largest decline was in middle school, which saw proficiency decreases from 60% in 2018 to 36% in 2021.

There were slight declines in students scoring Mastered and On Track.

There was an increase in students scoring Approaching and Below.

*There were no operational science tests administered in 2019.*
KEY TAKE-AWAYS

• In high school, proficiency rates in science declined from 50% in 2018 to 41% in 2021.

• There were slight declines in students scoring Mastered and On Track.

• There was an increase in students scoring Approaching and a slight increase in students scoring Below.

*There were no operational science tests administered in 2019.*

SOURCE: Tennessee Department of Education, 2021
KEY TAKE-AWAYS

• Overall proficiency declined from 41% of middle schoolers in 2019 to 37% in 2021.

• There were slight declines in students scoring Mastered.

• There was an increase in students scoring Approaching.

• Low-income students, urban/suburban students, English learners, and students of color were most negatively impacted.
KEY TAKE-AWAYS

• Overall proficiency increased from 29% of high schoolers in 2019 to 33% in 2021.

• The increases were exclusively for those students scoring On Track.

• There was a 2-point decrease in students scoring both Approaching and Below.
