

2025-26 Alternative Assessment Justification

Local Educational Agency (LEA) Justification and Assurances for Exceeding the 1.0 Percent Cap

Purpose

In accordance with the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA), and 34 C.F.R. § 200.6(c), local educational agencies (LEAs) contributing to the state exceeding the 1.0 percent cap must submit a justification and assurances.

1. Select LEA Name and ID#

780 - Sevier County

2. Enter the Last Name, First Name of the individual submitting this form.

Missy Wade

3. Identify your role within the LEA. Special Education Director

- a. Special Education Director
- b. Special Education Coordinator
- c. Other

ELA Participation Rates for School Years 2020-21 through 2025-26

4. **ELA Participation Rates 2020-21** *Note: Prior to the 2023-24 SY, Tennessee participated in the Multi-State Alternate Assessment (MSAA) in English language arts (ELA) and mathematics. Beginning in the 2023-24 SY, the Dynamic Learning Maps (OLM) embedded alternate assessment replaced the MSAA. **

1.09

5. **ELA Participation Rates 2021-22** *Note: Prior to the 2023-24 SY, Tennessee participated in the Multi-State Alternate Assessment (MSAA) in English language arts (ELA) and mathematics. Beginning in the 2023-24 SY, the Dynamic Learning Maps (OLM) embedded alternate assessment replaced the MSAA. **

1.19

6. **ELA Participation Rates 2022-23** *Note: Prior to the 2023-24 SY, Tennessee participated in the Multi-State Alternate Assessment (MSAA) in English language arts (ELA) and mathematics. Beginning in the 2023-24 SY, the Dynamic Learning Maps (OLM) embedded alternate assessment replaced the MSAA. **

Number of Students Scoring

To calculate: Log into KITE - Reports - Alternate Assessment Reports - Year 2025 - LEA Name and select the .PDF file. The first table in the report provides the number of students scoring Advanced by grade and subject. Calculate the total number of students scoring Advanced for each subject.

22. In school year 2024-25, list the total number of students scoring "Advanced" for **ELA**. *

17

23. In school year 2024-25, list the total number of students scoring "Advanced" for **Math**.

5

Process for Determining Alternate Assessment Eligibility:

Criterion One

In this section, describe the processes in place to ensure the IEP team is making informed, data-based decisions aligned to the alternate assessment participation criteria. Please note that completion of the Alternate Assessment Worksheet in TN PULSE alone is not sufficient evidence.

Criterion One: The student has a significant cognitive disability. Only students with the most significant cognitive disabilities should be considered for the alternate assessment.

You must also describe the process for reviewing alternate assessment eligibility for any student scoring Advanced in at least one subject. Advanced performance scores may indicate that the student's skills exceed the eligibility criteria and should prompt a review of the student's continued participation in the alternate assessment.

In the questions below, describe the process used to ensure the IEP team considers only students with the most significant cognitive disabilities (approximately 1.0 percent of the student population).

24. How are IEP teams informed of the criterion and expectations for determining if the student meets expectations for participation? *

A combination of guidance from IDEA regulations as well as from the state guidelines. Data collections cognitive assessments and observations from educators are utilized also.

25. What data are used to make the determination (e.g., cognitive and adaptive behavior data)? *

A comprehensive assessment including formal observations are used to make appropriate determinations.

26. How is adaptive behavior data incorporated into the decision-making process? *

Adaptive behavior data is a critical part in understanding the students's functional performance. This also gets all stakeholders perspective on the student.

Process for Determining Alternate Assessment Eligibility:

Criterion Two

In this section, describe the processes in place to ensure the IEP team is making informed, data-based decisions aligned to the alternate assessment participation criteria. Please note that completion of the Alternate Assessment Worksheet in TN PULSE alone is not sufficient evidence.

Criterion Two: The student is learning content linked to (derived from) state content standards. All students, regardless of the assessment or the least restrictive environment (LRE) should receive standards-aligned instruction that is rigorous, meaningful, and sufficient in duration to increase student outcomes. Special education services are provided in addition to, not in place of, standards-based instruction.

In the questions below, describe the evidence used to ensure the student was provided access to grade-level, standards-aligned instruction. This should include an explanation of the process used to ensure the student received instruction aligned to grade-level standards at an appropriate level of rigor, intensity, and duration comparable to their peers.

27. How does the IEP team ensure the student's performance and skill level are due to a significant cognitive disability rather than an instructional disadvantage? *

The IEP team differentiates between a student's cognitive disability and an instructional disadvantage by utilizing a comprehensive assessment and using data that would rule out a lack of instruction. Gathering instructional history, looking into intervention (RTI) instructional materials, attendance, etc. will give evidence to the information.

28. What data are used to make an informed determination? *

Data used to make this determination are attendance, lack of instruction, adaptive behavior, history of highly qualified educators, ESL status, interventions in RTI, etc.

Process for Determining Alternate Assessment Eligibility:

Criterion Three

In this section, describe the processes in place to ensure the IEP team is making informed, data-based decisions aligned to the alternate assessment participation criteria. Please note that completion of the Alternate Assessment Worksheet in TN PULSE alone is not sufficient evidence.

Criterion Three: The student requires extensive direct individualized instruction and substantial supports to achieve measurable gains in the grade- and age-appropriate curriculum.

In the questions below, describe the process used to determine that the student requires extensive, direct individualized instruction and substantial supports.

29. What data are used to support this determination? *

Data that are used to support an Alt Assessment determination should include a cognitive assessment, an adaptive behavior assessment, an academic achievement assessment, benchmark assessments, progress monitoring data, and present levels.

30. How do IEP teams determine the type and level of supports needed, including for students whose least restrictive environment (LRE) is a highly modified special education setting for all or part of the day? *

The IEP team always starts by looking at the least restrictive environment. Increasing the time (restrictiveness) should only happen when data leans toward the necessity for the betterment of the student.

31. How does the IEP team distinguish between supports required due to the student's disability and supports that are available as part of the instructional environment? *

The IEP team will distinguish between supports required due to the student's disability and supports that are available as part of the instructional environment by looking to see if the support is routinely available to all students without a need. A support is needed and if the IEP team agrees to the need by showing data that a student cannot access or make progress without the support. If removing the support would cause the student from accessing instruction, it would be considered essential.

Disproportionality

Using data by primary eligibility (disability) category and demographic groups, describe LEA patterns of participation in the alternate assessment, including any disproportionate participation and a plan for reducing or eliminating disproportionality. Include a description of the LEA population demographics as compared to statewide demographics.

32. Describe any identified disproportionality in alternate assessment participation and the LEA's plan to address and reduce disproportionate participation, as applicable.

We were disproportionate in all special education for white OHI students. We plan to take a deep dive into this data and brain storm ways to make corrections. As to the ALT tested students, I am not sure where to find that information.

*(For example, if the LEA student population is evenly distributed among White, Black, and Hispanic students, the alternate assessment participation data should reflect a similar distribution across those groups.) **

Informed Parent Participation

Students who participate in alternate assessments are significantly less likely to earn a traditional diploma due to the highly modified content and potential for lower expectations.

In the questions below, describe the processes and practices used to ensure parents are fully informed of the eligibility requirements and implications of alternate assessment participation.

33. How are parents informed of the eligibility criteria and implications of participation? *

Parents are part of the decision making during an IEP meeting. This decision is a team decision. The parents are told all the implications of the student being placed on an alternative assessment. It all takes place during the IEP meeting.

34. How are parents included in the IEP team decision-making process? *

An IEP meeting is set utilizing all IDEA regulations for setting a meeting time. Parents are formally invited. No decision is made without parent input including giving all information of implications to the parents.

35. Participation in the alternate assessment must be reviewed at least annually. Students may transition to the general assessments at any time, as determined by the IEP team.

What processes are in place to ensure these decisions are fully discussed and reviewed at least annually? *An annual meeting is set. All parents/guardians are formally invited. Data is gathered at least once a year. Progress reports are sent home each grading period.

Ensuring Students Are Making Academic Progress

In *Endrew F. v. Douglas County School District*, the U.S. Supreme Court clarified that an IEP must be "reasonably calculated to enable a child to make progress appropriate in light of the child's circumstances." Additionally, the U.S. Department of Education denied the state's 2024-25 waiver request, noting that it did "not find that approving the waiver will advance student academic achievement, as required in section 8401(b)(1)(C) of the Elementary and Secondary Education Act (ESEA)."

Thus, LEAs that contribute to the state exceeding the 1.0 percent cap must provide assurances that students participating in alternate assessments are provided access to and engagement in standards-based instruction and are making appropriate academic progress.

36. Describe the policies, procedures, and practices used in your LEA to ensure students are provided instruction that meets the requirements set forth by ESEA and *Endrew F.*, and that students make appropriate academic progress.*FAPE is provided to all students. The LEA implements standards aligned curriculum. Students' accommodations and modifications are design the students' instruction. Students are progress monitored with state approved measurments. The LEA monitors by visiting classrooms to insure compliance of IEPs.

Support Requested

37. Please describe any support needed from the department to assist in meeting the requirements outlined in this form. All reasonable requests will be considered. * More one pagers and flow charts that are parent friendly.
