Tennessee Online Review Instruction Card

To gain access to your Smithsonian and Carolina digital samples:

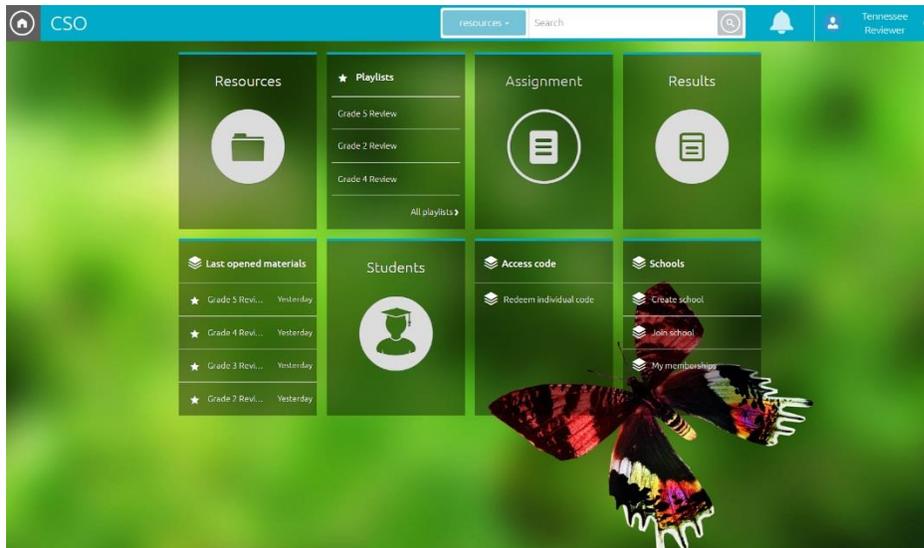

Step 1: Go to carolinascienceonline.com and click on Teacher Login

Step 2: enter email address: tnK8review@carolina.com

Step 3: Click "Submit"

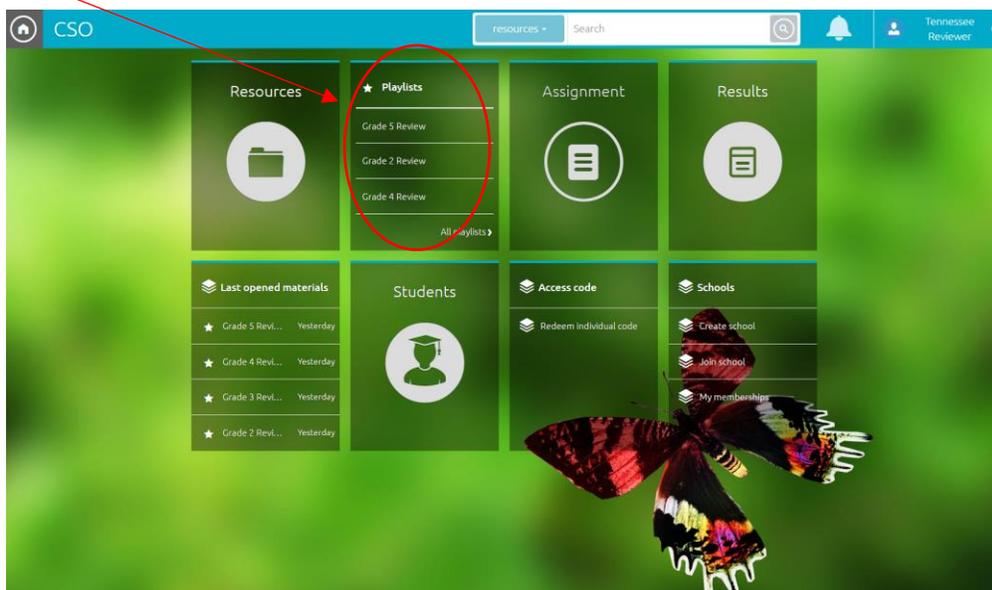

Step 4: Enter password: tnK8review (case sensitive)

You will arrive on the Tennessee Reviewer **Carolina Science Online** dashboard

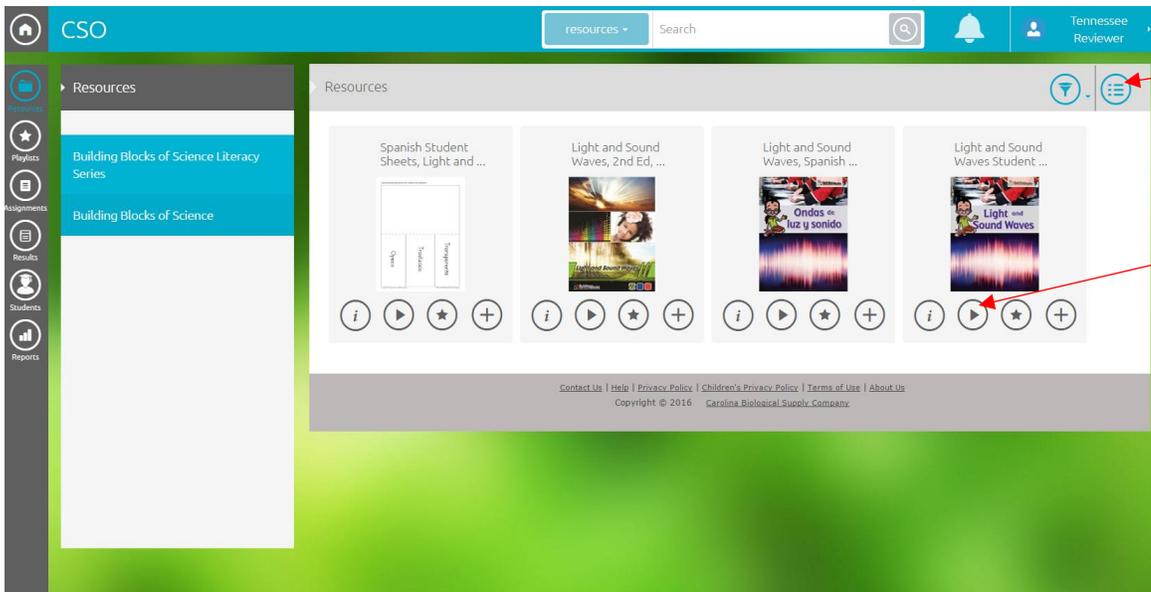

To access resources, a playlist has been created for each grade level.

Click on the grade you would like to review.

Tennessee Online Review Instruction Card

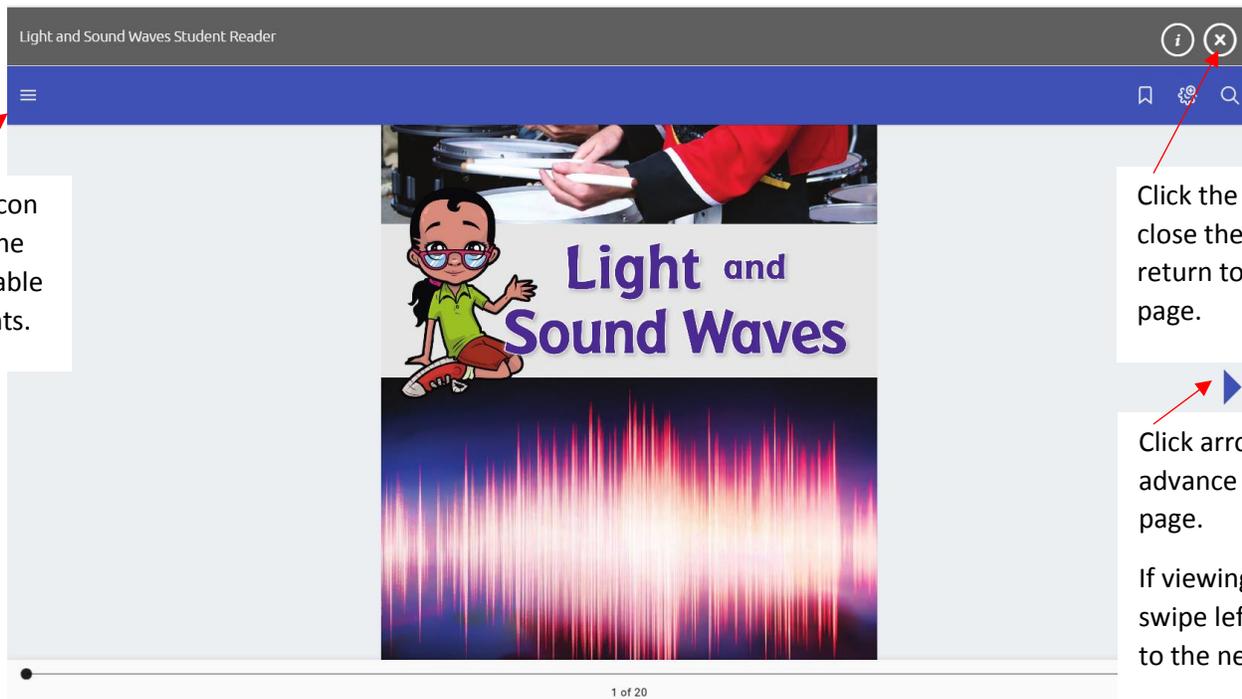

The resources for that grade level will come into view

If you prefer to view the resources in a list, rather than thumbnails, click the list icon.

To open the eBook, click on the play icon.

Navigating the eBook:

Click list icon to open the eBooks Table of Contents.

Click the close icon to close the eBook and return to the playlist page.

Click arrow to advance to the next page.

If viewing on an iPad, swipe left to advance to the next page.

TwigEducation STEM resources for K to 12

Twig Education, comprised of Twig Science, Tigtag, and Tigtag Junior, offers a vast collection of multi-award-winning education technology content ideal for bringing 'real world' STEM content to the classroom.

Twig's collection of short, compelling videos, and engaging interactive resources, are high-quality, rich-media instructional content for grades K to High School. Twig content, comprised of thousands of short videos, lesson plans, practical activities, and images, support students and teachers in improving their results in science and other STEM subjects. The Twig resources proposed to the State of Tennessee are aligned to Carolina Biological's core curricula and offer a dynamic and highly engaging means to captivate and motivate students.

Used in thousands of schools throughout the United States, and in over 70 countries in 19 languages Twig Education is an award winning way to deliver an engaging multimedia STEM curriculum.
