The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to air.pollution.control@TN.gov or Ms. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15th Floor, Nashville, Tennessee 37243 within 30 days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Construction permits issued by TDAPC do not grant any authority operate, construct, or maintain any installation in violation of any law, statute, code, ordinance, rule, or regulation of the State of Tennessee or any of its political subdivisions.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 22nd Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (615) 532-0207. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

The applicant is BAE Systems Ordnance Systems Inc. dba Area B - Holston Army Ammunition Plant with a mailing address of 4509 West Stone Drive, Kingsport, TN, 37660. The applicant seeks to obtain an air contaminant permit (Division identification number: 37-0028 and 980425 for the construction at the following address: 4509 West Stone Drive, Kingsport. The permit request is for the construction of the following: new car-bottom flashing furnace for combustion of hazardous explosive waste and non-hazardous explosive contaminated solid waste (incineration mode) and for thermal treatment of noncombustible explosive contaminated solid waste (decontamination mode). The air pollution control system will include a gas cooler, a baghouse with an integrated HEPA filter, a wet scrubber, and a secondary HEPA filter. An SCR will be used to control NO\textsubscript{X} emissions during incineration mode, and an SNCR injection grid will be used to control NO\textsubscript{X} emissions in decontamination mode. There would be physical construction. Regulated air contaminants would be emitted by this source. Information regarding this source can be found in the Division of Air Pollution Control Dataviewer link which can be found at the bottom of the Division of Air Pollution Control webpage.

Travis Blake is the assigned Division person.
