

New Source Review newspaper advertisements for construction permit applications, July 20, 2020. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications will be published on the following dates: July 21-23, 2020. Public notices are generally published every week. The previous publication of public notices was July 15, 2020.

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mrs. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15th Floor, Nashville, Tennessee 37243 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Any individuals with disabilities who wish to participate in these proceedings or to review these filings should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be in person, by writing, telephone, or other means, and should be made no less than ten (10) days prior to the hearing, or the date such party intends to review such filings, to allow time to provide such aid or service. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 22nd Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (615) 532-0207. Hearing impaired callers may use the Tennessee Relay Service (1-800-848- 0298).

The applicant is Rogers Group, LLC – Allons Quarry with a mailing address of 421 Great Circle Road, Nashville, TN 37228. They seek to obtain an air contaminant permit (Division identification number: 67-0098-01/978359) for the modification of a Rock Crushing and Screening Operation located at Highway 52, Allons, TN 38541. This existing operation consist of a portable Astec jaw crusher, conveyors, and associated equipment used for the processes of rock crushing and screening operations at the rock quarry. Wet suppression would be used of pollution control. The requested modification is to add a portable Mobiscreen MS 20 screen unit to the process of rock crushing and screening operations. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Horton is the assigned Division person.

For the Overton County “Livingston Enterprise” on Tuesday, July 21, 2020.

The applicant is Eastman Chemical Company with a mailing address of P.O. Box 511, Kingsport, TN 37662. They seek to obtain an air contaminant permit (Division identification numbers: 82-0003-222 and 223/978374) for modification of a Chemical Manufacturing Operation located at 200 South Wilcox Drive, Kingsport, TN 37662.

Existing emission source 82-0003-222 consists of recovery equipment for weak organic acids. Wet scrubbers are used to control emissions of volatile organic compounds and hazardous air pollutants. The requested modification would allow the installation of an additional scrubber (Vent D). There would be physical construction associated with the requested modification, and regulated air contaminants emitted by the source would increase. Mr. T. Blake is the assigned Division person.

The applicant is Johns Manville, Inc. with a mailing address of P.O. Box 309 Etowah, TN 37731. They seek to obtain an air contaminant permit (Division identification number: 54-0132-20, 50, 51/ 78246) for modification of a glass furnace production line located at 2235 Highway 411 North, Etowah, TN 37731. The existing 3304 Glass Furnace Fiber Production Line includes the glass furnace (melter), material handling equipment (storage silos and hoppers, weigh bins, and unloading systems), and various glass dryers. Emissions are controlled by a wet scrubber, baghouses, and an electrostatic precipitator. The proposed modification will involve an increase in glass furnace production capacity. There would not be physical construction. Regulated air contaminants emitted by this source will increase. Mr. John Trimmer is the assigned Division person.

For the McMinn County “Daily Post-Athenian” publish once on Wednesday July 22, 2020.

The applicant is Henning Hardwoods, LLC. with a mailing address of P.O. Box 391, Henning, TN 38041. They seek to obtain an air contaminant permit for an existing facility at 205 Bethlehem – Henning Road, Henning, TN 38041 as follows:

(1) Rough Cut Sawmill (Division identification number: 49-0136-01/978127). This existing operation consists of a primary saw, edging saw, and associated equipment. Because of the amount and type of emissions, pollution control equipment is not proposed. There would not be physical construction. Regulated air contaminants are emitted by this source.

(2) 250 HP Non-Emergency Diesel Engine (Division identification number: 49-0136-02/978127). This existing operation consists of a diesel fueled engine. Because of the amount and type of emissions, pollution control equipment is not proposed. There would not be physical construction. Regulated air contaminants are emitted by this source.

Ms. Chelsea M. Materi is the assigned Division person.

For the Lauderdale County “Lauderdale County Enterprise on Thursday July 23, 2020.
