

Notice of PSD Final Determination and Permit Issuance

Tennessee Valley Authority - Brownsville Combustion Turbine Plant has received approval from the Tennessee Department of Environment & Conservation, Division of Air Pollution Control to increase the operating availability of four existing combustion turbines used to produce electricity in Brownsville, Haywood County, Tennessee, at their **Electric Power Generating Facility**. The Technical Secretary has made a written final determination to approve the proposed modification in accordance with Tennessee Air Pollution Control Regulations 1200-03-09-.01(4) and the conditions of PSD construction permit 976987.

Pursuant to Tennessee Air Pollution Control Regulations 1200-03-09-.01(4)(1)2, the Technical Secretary must notify the applicant in writing of the final determination and make such notification available for public inspection at the same location where the Technical Secretary made available preconstruction information and public comments relating to the source or modification. The Technical Secretary must also make all comments available for public inspection in the same locations where the Technical Secretary made available preconstruction information relating to the proposed source or modification.

A copy of the PSD final determination, construction permit, and comments are available for public inspection during normal business hours at the following locations:

TDEC Division of Air Pollution Control
Jackson Environmental Field Office
1625 Hollywood Drive
Jackson, TN 38305

TDEC Division of Air Pollution Control
William R. Snodgrass Tennessee Tower
312 Rosa L. Parks Avenue, 15th Floor
Nashville, Tennessee 37243

All public comments and written comments prepared by the Technical Secretary will be maintained in the public depositories for one year from the date of issuance of the final determination.
