

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to [air.pollution.control@TN.gov](mailto:air.pollution.control@TN.gov) or Ms. Michelle W. Owenby, Director, Division of Air Pollution Control, Davy Crockett Tower, 7<sup>th</sup> Floor, 500 James Robertson Parkway, Nashville, Tennessee 37243 within 30 days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Construction permits issued by TDAPC do not grant any authority to operate, construct, or maintain any installation in violation of any law, statute, code, ordinance, rule, or regulation of the State of Tennessee or any of its political subdivisions.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, Davy Crockett Tower, 6th Floor, 500 James Robertson Parkway, Nashville, TN 37243, (615) 532-0207. Hearing impaired callers may use the Tennessee Relay Service (1-800-848- 0298).

The applicant is McNeilus Truck and Manufacturing, Inc. (Oshkosh Vocational, Tennessee) with a mailing address of 2120 Logistics Way, Murfreesboro, TN 37127. The applicant seeks to obtain an air contaminant permit (Division identification number: 75-0907 and 83303) for construction at the following address: 2120 Logistics Way, Murfreesboro. The permit request is for construction/modification of the following: The existing surface coating spray booth (Source 01) would be modified to increase the throughput of electric, heavy-duty refuse truck chassis. This modification would include the construction of two additional surface coating spray booths, three natural gas-fired bake ovens, one paint kitchen, and one paint mixing room. Fabric filtration is proposed to control pollutant emissions from the spray booths. There would be physical construction. Regulated air contaminants are emitted by the existing emission source and would be emitted from the new emission units/activities. Information regarding this source can be found in the Division of Air Pollution Control Dataviewer link which can be found at the bottom of the Division of Air Pollution Control webpage.

Joshua Rhoads is the assigned Division person.
