Upcoming rule changes:

- Air Emissions Reporting Requirements (AERR) with proposal deadline of November 17. Will require a potentially large number of small businesses to have to report hazardous air pollutants when before, in TN, only major sources were required to report criteria pollutants and not HAPs.
- MM2A: Formerly known as the Once-In-Always-In policy, changes to this policy named Reclassification of Major Sources as Area Sources Under Section 112 of the Clean Air Act allowed major sources that reduce emissions below major source thresholds to be reclassified as area sources. Comments due November 13.

SBEAP impact and development

- Reviewing master's thesis from KY SBEAP member outlining cost-benefit analysis of SBEAP programs.
- Upcoming webinars
- Discussion of additional associations, conferences, or events that SBEAP may fit in with and have an outreach presence.

National SBEAP Annual Training

- To be held in Chattanooga
- Agenda still being developed
