1:35 – Updates on SBEAP staff	Crystal Warren
1:40 – SBEAP involvement in O&G outreach	Donovan Grimwood
1:50 – APC development of general permit and woodworking form	Donovan Grimwood
2:00 – Updated CAP Guidance	Group discussion
2:20 – Open Forum	
2:30 – Adjourn	

Changes to SBEAP staff

SBEAP has posted a vacancy and is accepting TDEC internal applications. Crystal has insight into where we are on this.

SBEAP involvement in O&G Outreach

Public meeting in Livingston, field trip, and upcoming virtual public meeting. Also EPA is stepping up their outreach. This is all in relation to the EPA Oil and Gas Methane Reduction rule aiming to reduce methane emissions from O&G wells. Majority of rule is focused on larger oil producing states, but rule also catches smaller businesses. Approximately 350 small O&G businesses in TN

APC development of general permits and woodworking form

APC has started getting some NOIs for ready-mix concrete, SBEAP has helped businesses with submission of NOI for nonmetallic minerals though the NOI is not officially complete, and APC is working on a new woodworking form. SBEAP is involved in all three to some degree

Updated CAP Guidance

This is designed as an overall guidance on CAP meetings and purpose as well as to help new CAP members understand what the CAP is and why it was created. As it corresponds to a policy per the TDEC policy on policies, it needs feedback from the CAP and may also need to be posted for public comment. CAP members are requested to review the guidance prior to the Summer meeting so as to be able to provide feedback.
