Hazardous Waste Permitting Activities 1st Quarter Update

Presented to the
Underground Storage Tanks and
Solid Waste Disposal Control Board

December 2, 2020

Introduction

Tennessee statute requires a quarterly update on the **timeliness** of permit processing by the Division of Solid Waste Management (DSWM) to be provided to the Board. This report is for the State's First Quarter running from July 1, 2020 to September 30, 2020.

Tennessee regulations specify **time limits** for applications:

- Completeness reviews/determinations
- Approval or denial (Class 2 modifications and new commercial applications)
- For the following:
 - Part B permit applications
 - Class 1 and ¹1 permit modifications
 - Class 2 permit modifications
 - Class 3 permit modifications
- TDEC issues Notice of Deficiencies/Comments if submittal is incomplete
