Guidance Document

Surety Bonds for Closure/Post-Closure for the State of Tennessee’s Solid Waste Program

Surety bonds submitted in fulfillment of the requirements of Tennessee Rule 0400-11-01-.03(3) must meet the requirements in the checklist below.

Checklist

☐ The department must receive a signed original of the surety bond.

☐ The bond must use the language provided by the department.

☐ The penal sum of the bond must be in an amount at least equal to the total amount of financial assurance required.

☐ The bond must indicate which portion of the total bond value is for closure and which is for post-closure.

☐ The surety company issuing the bond must be licensed to do business as a surety in Tennessee.

☐ The bond must be accompanied by a power of attorney form.

A note on amendments to surety bonds: When making yearly adjustments for inflation to a bond, the surety will usually send an amendment referencing the original bond number and indicating the new amount rather than sending a completely new bond. This is acceptable. In these cases, we will review the amendment for the following:

☐ The amendment should reference the correct original bond number.

☐ The amendment must be a signed original and be accompanied by a power of attorney form.
☐ The amendment should indicate clearly that all other terms and conditions of the original bond remain unchanged.

Note: This checklist is provided only as a convenience in order to address some of the more common issues that we encounter when reviewing financial instruments. It is not intended as a complete representation of all applicable regulatory requirements. Please consult with your legal counsel and the TDEC Division of Financial Responsibility before submitting a financial instrument.
