

Who we are:

The Department of Environment and Conservation exists to enhance the quality of life for citizens of Tennessee and to be stewards of our natural environment.

We foster a work environment that's inclusive as well as diverse, where our people can be themselves. Every idea and perspective is valued so that our culture reflects the people we serve.

Our Department is committed to providing a cleaner, safer environment that goes hand-in-hand with economic prosperity and increased quality of life in Tennessee. We deliver on our mission through managing regulatory programs that maintain standards for air, water and soil quality while providing assistance to businesses and communities in areas ranging from recreation to waste management. We manage the state park system and programs to inventory, interpret and protect Tennessee's rich natural, historical, and archaeological heritage.

About the Division of Water Resources (DWR):

The Division Water Resources is responsible for managing, protecting, and enhancing the quality of the state's water resources for all Tennesseans through voluntary, regulatory and educational programs. Division activities include establishment of water quality criteria; issuance of permits and certifications; evaluation of monitoring data; conducting inspections; management of financial assistance for infrastructure and oversight activities related to stream channel modification, wetland alterations, dredging, groundwater protection, wellhead protection, safe dams, septic systems, pretreatment, bio solids application, and storm water.

TDEC Environmental Consultant 3 Engineering Services Division of Water Resources Annual Salary Range: \$65,796 – \$105,264

Are you seeking a wonderful opportunity to work with a collaborative team in Tennessee State government? Are you concerned with protecting our environment and public health? This position with our Division of Water Resources is located at the Central Office in Nashville, TN. This position plays a key role in storm water infrastructure, drinking water and wastewater construction plans review. Currently, TDEC employees are working in alternative workspaces from their home with the flexibility to have scheduled time in the office.

The ideal candidate will have a bachelor's degree in engineering; preferred engineering focus on civil, chemical, environmental, or mechanical engineering is preferred. Preference may be given to those with civil/site experience and achievement of Engineering-in-Training status and those licensed as a Professional Engineer in Tennessee or able and motivated to obtain a licensure. To apply for this position: <http://www.tn.gov/careers>.

Highlighted Responsibilities:

- Provide engineering support to the Division of Water Resources and the consulting engineers and permittees with particular expertise in site development and stormwater design.
- Acquire and maintain working knowledge of rules and guidance governing water in the state.
- Conduct daily technical work including review and approval of site plans.
- Assist the Compliance and Enforcement Unit with review of corrective action plans and other engineering documents.
- Update water rules and guidance documents.
- May be asked to assist in additional division-wide programs, as requested by management, to support the mission of the Agency and Division.

Pursuant to the State of Tennessee's Workplace Discrimination and Harassment policy, the State is firmly committed to the principle of fair and equal employment opportunities for its citizens and strives to protect the rights and opportunities of all people to seek, obtain, and hold employment without being subjected to illegal discrimination and harassment in the workplace. It is the State's policy to provide an environment free of discrimination and harassment of an individual because of that person's race, color, national origin, age (40 and over), sex, pregnancy, religion, creed, disability, veteran's status or any other category protected by state and/or federal civil rights laws.
