Who we are:

The Department of Environment and Conservation exists to enhance the quality of life for citizens of Tennessee and to be stewards of our natural environment.

We foster a work environment that’s inclusive as well as diverse, where our people can be themselves. Every idea and perspective is valued so that our culture reflects the people we serve.

Our Department is committed to providing a cleaner, safer environment that goes hand-in-hand with economic prosperity and increased quality of life in Tennessee. We deliver on our mission through managing regulatory programs that maintain standards for air, water and soil quality while providing assistance to businesses and communities in areas ranging from recreation to waste management. We manage the state park system and programs to inventory, interpret and protect Tennessee’s rich natural, historical, and archaeological heritage.

About the Division of Underground Storage Tanks (UST):

UST serves as the regulatory agency for petroleum underground storage tanks in Tennessee. The Division is accountable for protecting the health and environmental community for all Tennesseans through responsive and effective oversight of petroleum USTs to prevent future releases and remediation of existing petroleum UST contamination at active and inactive sites where petroleum underground storage tanks operate or have operated within the state. The Division has staff in the Central Office as well as eight Environmental Field Offices located across the state.

Are you seeking an opportunity to work with a collaborative team in Tennessee State government? Are you concerned with protecting our environment and public health? The Division of Underground Storage Tanks has a position located in our Memphis Environmental Field Office which oversees complex projects and serves as a technical expert for innovative technologies. The goal of the position and work is to ensure the mission to protect human health and the environment by providing oversight of assessment and corrective action of UST petroleum release sites statewide with regional emphasis. The position has the flexibility to work from home with some scheduled time in the office.

The position requires excellent communication skills to effectively serve a broad and diverse customer base. Preferred candidates will have experience with state and federal regulations that apply to petroleum underground storage tanks. Candidates must be familiar with Microsoft 365 applications. Preferred candidates will have a bachelor's degree in engineering, biology, physical sciences, or other related environmental science fields and five years of full-time professional experience, preferably environmental experience. Because the position conducts fieldwork at UST sites, daily travel is required with some overnight stays. To apply for this position please visit: [http://www.tn.gov/careers](http://www.tn.gov/careers).

Highlighted Responsibilities:

- Conduct regulatory and scientific proficiency reviews of plans, reports, various related submittals, and fieldwork oversight documentation related to the cleanup of petroleum release sites.
- Serve as a technical expert for innovative technologies related to assessment and remediation of petroleum UST releases in Western TN.
- Manage the permanent closure and cleanup of petroleum release sites according to regulatory requirements and scientific principles.
- Serve as a subject matter expert and consultant for Division staff, corrective action contractors, and the general public.
- Conduct training for Division staff and stakeholders.

Pursuant to the State of Tennessee's Workplace Discrimination and Harassment policy, the State is firmly committed to the principle of fair and equal employment opportunities for its citizens and strives to protect the rights and opportunities of all people to seek, obtain, and hold employment without being subjected to illegal discrimination and harassment in the workplace. It is the State's policy to provide an environment free of discrimination and harassment of an individual because of that person's race, color, national origin, age (40 and over), sex, pregnancy, religion, creed, disability, veteran's status, or any other category protected by state and/or federal civil rights laws.
