

Who we are:

The Department of Environment and Conservation exists to enhance the quality of life for citizens of Tennessee and to be stewards of our natural environment.

We foster a work environment that's inclusive as well as diverse, where our people can be themselves. Every idea and perspective are valued so that our culture reflects the people we serve.

Our Department is committed to providing a cleaner, safer environment that goes hand-in-hand with economic prosperity and increased quality of life in Tennessee. We deliver on our mission through managing regulatory programs that maintain standards for air, water and soil quality while providing assistance to businesses and communities in areas ranging from recreation to waste management. We manage the state park system and programs to inventory, interpret and protect Tennessee's rich natural, historical, and archaeological heritage.

About the Division Remediation:

The Division of Remediation (DoR) identifies and investigates hazardous substance sites, then uses practical and effective remedies to correct issues found which minimizes threats to public health, safety, and the environment. DoR oversees work at National Priority List (NPL) Superfund sites, state inactive hazardous substance sites, brownfields, dry cleaners, and properties where methamphetamine was illegally manufactured. DoR operates the Voluntary Cleanup, Oversight and Assistance Program (VOAP) and supports the redevelopment and revitalization of brownfields to protect the environment, reuse existing infrastructure, minimize urban sprawl, and create economic opportunities. The DoR Oak Ridge office focuses on the US Department of Energy (DOE) Oak Ridge Reservation (ORR). DoR concentrates on joint remedial decisions made with the DOE and the U.S. Environmental Protection Agency (EPA).

TDEC Environmental Scientist 2 Division of Remediation Nashville Environmental Field Office Annual Salary Range: \$47,496 - \$71,400

Are you looking for an opportunity to work with a collaborative team in the Tennessee State government? Are you concerned with protecting our environment and public health? The Division of Remediation (DoR) has a position located at our Nashville Environmental Field Office in Nashville, TN. This position will work with an interdisciplinary team overseeing cleanup and redevelopment activities at contaminated hazardous substance sites across Middle Tennessee. TDEC employees are working in alternative workspaces from their homes with the flexibility to have scheduled time in their assigned office.

Preferred candidates should have general knowledge in overseeing CERCLA remediation work, hold current certification under 40-hour HAZWOPER, and have health and safety experience. Applicants must be familiar with Microsoft 365 and the use of databases. This position requires the ability to travel daily with occasional overnight stays. We seek candidates with a minimum of a bachelor's degree in geology, engineering, physical sciences, environmental science, environmental health, ecology, sustainability, life sciences, or other acceptable science or natural resource related fields and one to two years of full-time professional environmental work. Candidates must meet the minimum qualifications (MQs) for this position. For MQs and how to apply for this position, please visit: <https://www.tn.gov/careers>.

Highlighted Responsibilities:

- Independently manage projects through the lifecycle of remediation to ensure safe redevelopment and reuse of contaminated properties.
- Assist with and manage field sampling efforts for Pre-Remedial and Site Assessment projects, including sampling, data analysis and report generation.
- Collaborate with DoR's subject matter experts in reviewing technical planning, engineering, monitoring, and reporting documents.
- Build rapport with and effectively assist environmental consultants, environmental lawyers, and site owners through the Brownfield program; answer programmatic questions and help solve complex environmental problems.
- Collaborate with the U.S. EPA and internal divisions to address and maintain compliance with state regulations for effective remediation.
- Review and create complex technical documents, including data quality analysis and objectives, work plans, site characterization proposals, sampling and analysis plans, design reports, construction completion reports, and records of decisions.
- Interpret and follow state and federal environmental regulations. Types of regulations include CERCLA, RCRA, the Clean Water Act, solid waste regulations, and the Clean Air Act.

Pursuant to the State of Tennessee's Workplace Discrimination and Harassment policy, the State is firmly committed to the principle of fair and equal employment opportunities for its citizens and strives to protect the rights and opportunities of all people to seek, obtain, and hold employment without being subjected to illegal discrimination and harassment in the workplace. It is the State's policy to provide an environment free of discrimination and harassment of an individual because of that person's race, color, national origin, age (40 and over), sex, pregnancy, religion, creed, disability, veteran's status or any other category protected by state and/or federal civil rights laws.
