

## Who we are:

The Department of Environment and Conservation exists to enhance the quality of life for citizens of Tennessee and to be stewards of our natural environment.

We foster a work environment that's inclusive as well as diverse, where our people can be themselves. Every idea and perspective are valued so that our culture reflects the people we serve.

Our Department is committed to providing a cleaner, safer environment that goes hand-in-hand with economic prosperity and increased quality of life in Tennessee. We deliver on our mission through managing regulatory programs that maintain standards for air, water and soil quality while providing assistance to businesses and communities in areas ranging from recreation to waste management. We manage the state park system and programs to inventory, interpret and protect Tennessee's rich natural, historical, and archaeological heritage.

## About the Division of Underground Storage Tanks (UST):

UST serves as the regulatory agency for petroleum underground storage tanks in Tennessee. The Division is accountable for protecting the health and environmental community for all Tennesseans through responsive and effective oversight of petroleum USTs to prevent future releases and remediation of existing petroleum UST contamination at active and inactive sites where petroleum underground storage tanks operate or have operated within the state. The Division has staff in the Central Office as well as eight Environmental Field Offices located across the state.

## TDEC Environmental Scientist 1 Division of Underground Storage Tanks Jackson Environmental Field Office Annual Salary Range: \$40,380 – \$64,620

Are you seeking an opportunity to work with a collaborative team in Tennessee State government? Are you concerned with protecting our environment and public health? The Division of Underground Storage Tanks (UST) offers a position which serves as a remediation case manager ensuring the mission to protect human health and the environment by providing oversight of assessment and corrective action of UST petroleum release sites in West Tennessee. This position is responsible for remediation projects while working in a collaborative, high-performing environment in the Jackson Environmental Field Office (JEFO), reporting to the Nashville Central Office. Currently, TDEC employees have the flexibility to work in alternative workspaces from home with some scheduled time in the assigned office.

This position requires excellent communication skills to effectively serve a broad and diverse customer base. Candidates must be familiar with Microsoft 365 applications and be willing to learn database entry. Preferred candidates will have a bachelor's degree in engineering, biology, physical sciences, or other related environmental science fields. Since the position conducts fieldwork at UST sites, daily travel is required with some overnight stays. To apply for this position please visit: <http://www.tn.gov/careers>.

### Highlighted Responsibilities:

- Interact with the regulated community and public regarding petroleum underground storage tank rules and regulations in relation to assessment and cleanup activities.
- Manage the permanent closure and cleanup of petroleum release sites according to regulatory requirements and scientific principles.
- Conduct regulatory and scientific proficiency reviews of plans, reports, various related submittals, and fieldwork oversight and documentation related to the fate, transport, and cleanup of petroleum release sites.
- Compose clearly written correspondence and documentation of field activities.

*Pursuant to the State of Tennessee's Workplace Discrimination and Harassment policy, the State is firmly committed to the principle of fair and equal employment opportunities for its citizens and strives to protect the rights and opportunities of all people to seek, obtain, and hold employment without being subjected to illegal discrimination and harassment in the workplace. It is the State's policy to provide an environment free of discrimination and harassment of an individual because of that person's race, color, national origin, age (40 and over), sex, pregnancy, religion, creed, disability, veteran's status, or any other category protected by state and/or federal civil rights laws.*
