NOTICE OF PUBLIC HEARING

Proposed Issuance of NPDES Permit

Public Notice M2025-23

December 26, 2025

NOTICE IS HEREBY GIVEN; the Division of Mineral and Geologic Resources will hold a public hearing pursuant to Rule 0400-40-05-.06 (8) regarding the proposed issuance of a National Pollutant Discharge Elimination System (NPDES) permit.

Date: January 29, 2026

Time: 5:00 p.m. CST, Information Session
6:00 p.m. CST, Public Hearing

Location: Warren County Administrative Building
201 Locust Street
McMinnville, TN 37110

The public hearing will be presented via video-teleconference and may be attended online, by phone, or in-person at the address above. Information describing how to join online or by phone is provided below. At the hearing, the Division will receive public comments concerning the following permit action:

NPDES Permit: TN0070740
Applicant: Rogers Group, Inc.
Mine Name: Dibrell Quarry
Facility Location: Roy Foster Road, McMinnville, TN 37710
County: Warren

The application and draft permit are available in the Division of Mineral & Geologic Resources Data Viewer at www.tn.gov/environment/about-tdec/tdec-dataviewers.html. The draft NPDES permit is for a new limestone quarry. The receiving streams for proposed discharges are an unnamed tributary to Mountain Creek and Bluff Springs Branch. If you have questions related to the draft permit, contact Caleb Macky at (865) 227-8652 or Caleb.Mackey@tn.gov.

The purpose of the hearing is to gather information from the public relevant to a final decision on the permit application. Comments not related to water quality or to the information contained in the permit application will not be considered in the decision-making process. Issues such as air quality, zoning, blasting, noise, dust, and traffic are not related to water quality and are not regulated by the Division of Mineral and Geologic Resources or the NPDES program; therefore, consideration of these issues would not contribute relevant information for the proposed permit.

The hearing officer may limit the length of oral comments to five minutes and will require that all comments be relevant to NPDES water quality-related issues. Undue repetition in oral presentations should be avoided so that all interested parties will have an opportunity to present their concerns. Written comments related to the NPDES permit will also be accepted at the hearing. Written comments will be afforded the same consideration as verbal comments.

Participants may join online using the website link below or call in by phone (audio only). Prior to opening the formal public hearing, an information session will be held at 5:00 p.m. The information session will allow participants to ask questions informally and receive input from TDEC staff. The formal hearing will begin at 6:00 p.m. Once the formal public hearing begins, the question-and-answer format will end, and all public comments will be collected for the hearing record without response from TDEC during the hearing.

Information regarding how to join by computer will be posted to the following website:
