**Subject:** Camden Update 5-22-2017

Dear Camden Citizens –

Below is a summary of items that have occurred at EWS from Tuesday 5/9 through Friday 5/19. My previous update covered the period through Monday 5/8. I apologize for the long time period between updates; I've been traveling and out of the office for nearly this entire time period. Going forward, I will try to issue updates weekly on Mondays.

Pat.

- Continued to ship Aluminum Processing Waste Cell leachate off-site for disposal
- Performed routine daily gas system and cover operation and maintenance activities
- Performed daily ammonia monitoring
- Both stationary and portable ammonia monitors were calibrated by manufacturer's representatives on 5/17
- Interim clay cover placement completed on Industrial Waste Cell on 5/15
- Vegetative soil layer and stormwater control berm placement on Industrial Waste Cell approximately 50% complete
- Clay placed on Aluminum Processing Waste Cell on area of last working face to reduce minor odor generation
- Work on both containment berms complete; tanks have been placed, piped and are ready for use
- Industrial Waste Leachate pre-treatment system maintenance complete
  - Batch of leachate treated on 5/19
- Pump removed from Industrial Waste Cell Sump and cleaned
- Watered site roads to minimize dust generated during site activities

On an administrative note, please know that the bankruptcy trustee has informed TDEC that the meeting of creditors in the EWS, LLC case is set for 3:00 p.m. Monday, May 22. The case will not be taken up any earlier than 4:30 p.m. The case will be heard in Room 100 at the Nashville Customs House, 701 Broadway, Nashville, TN 37203.
