Subject: Camden Update 9-18-2017

Dear Camden Citizens –

Below is a summary of items that have occurred at EWS from Saturday 9/09 through Friday 9/15. My previous update covered the period through Friday 9/08.

Pat.

- Continued to ship Aluminum Processing Waste Cell leachate off-site for disposal
- Industrial Waste Cell leachate was sent off site for disposal (received analytical data, shipped to new facility)
- Treated Industrial Waste Cell leachate to prepare for off-site disposal
- Performed routine daily gas system and cover operation and maintenance activities
- Performed daily ammonia monitoring
- Service and calibration performed on ammonia monitors
 - Stationary monitor near residential area removed for service to service pump. Monitor expected to be back in service on 9-16-2017.
 - Stationary monitor on red barn calibrated and placed back into service
 - Portable monitor calibrated and functional
- Continuing site clean-up and housekeeping activities
- Repaired stormwater erosion and worked on perimeter drainage on Industrial Waste Cell
- As a reminder, a public meeting has been scheduled for Tuesday September 19th at the Benton County Courthouse
 - Meeting to start at 6:00 pm with an informal information session
 - Will hold a formal presentation starting at 6:30 pm to brief Camden citizens on:
 - Activities at EWS since TDEC assumed operations
 - Recent groundwater findings
 - Upcoming cap construction
 - A question and answer session will be held after the formal presentation
