**Subject:** RE: Camden Update 11-13-2017 - Correction

\*\*Dates have been corrected below\*\*

Dear Camden Citizens –

Below is a summary of items that have occurred at EWS from Saturday 11/4 through Friday 11/10. My previous update covered the period through Friday 11/3.

Pat.

- Continued to ship Aluminum Processing Waste Cell leachate off-site for disposal
- No Industrial Waste Cell leachate shipped off-site for disposal (waiting on results of analytic testing)
- Treated Industrial Waste Cell leachate to prepare for off-site disposal
- Continued sludge removal operations in Blue Storage Tank (described as the 118,000 Gallon Leachate Storage Tank in the 9-19-2017 presentation) as part of tank decommissioning process
- Performed routine daily gas system and cover operation and maintenance activities
- Performed daily ammonia monitoring
- Continuing site clean-up and housekeeping activities
- Continued clay placement on temporary Aluminum Processing Waste cell cover (work slow due to weather)
- Continued engineering work on the Industrial Waste Cell closure design
