**Subject:** Camden Update 2-20-2018

Dear Camden Citizens –

This update is issued on Tuesday rather than the usual Monday due to TDEC's offices being closed yesterday due to the President's Day Holiday. My apologies for forgetting to mention in last week's update that this would happen. Below is a summary of items that have occurred at EWS from Saturday 2-10-2018 through Friday 2-16-2018. My previous update covered the period through Friday 2-9-2018.

Pat.

- Continued to ship Aluminum Processing Waste Cell leachate off-site for disposal
- Industrial Waste Cell leachate continued to be treated and stored
- Performed routine daily gas system and cover operation and maintenance activities
- The Red Barn ammonia monitor is still out being repaired; the loaner unit remains in place and is collecting data
- Performed daily ammonia monitoring
- Continuing site clean-up and housekeeping activities
- Repaired erosion areas resulting from recent heavy rains
- Design package management and bid schedule is unchanged from the previous update. Recent activities and current milestone dates are:
  - Design Package Release: January 5, 2018 (Completed)
  - Mandatory Contractor Site Meeting Was Held on January 19, 2018 (Completed)
  - Notice to Successful Bidder: February 28, 2018
  - Expected Closure Construction Mobilization: April 6, 2018
  - Expected Closure Construction Completion: August 31, 2018
