**Subject:** Camden Update 3-26-2018

Dear Camden Citizens –

Below is a summary of items that have occurred at EWS from Saturday 3-17-2018 through Friday 3-23-2018. My previous update covered the period through Friday 3-16-2018. Please remember, as noted below, that TDEC is planning a meeting for interested citizens at the Benton County Courthouse on April 12<sup>th</sup> to discuss the upcoming closure construction.

Pat.

- Continued to ship Aluminum Processing Waste Cell leachate off-site for disposal
- Shipped Industrial Waste Cell leachate off-site for disposal
- Industrial Waste Cell leachate continued to be treated and stored
- Performed routine daily gas system and cover operation and maintenance activities
- The Red Barn ammonia monitor is still out being repaired; the loaner unit remains in place and is collecting data
- Performed daily ammonia monitoring
- Continued site clean-up and housekeeping activities
- First quarter 2018 surface water, groundwater, and leachate samples were collected
- Survey work to support closure construction was begun by Construction firm (Wright Brothers)
- As noted previously, TDEC will be holding a meeting open to any interested citizens (similar one previously held in September) so that we can present information regarding the upcoming construction effort. Representatives of CEC (engineering firm), Wright Brothers Construction (contractor), Weaver Consultants Group (construction quality assurance firm), and TDEC will be attending this meeting. The meeting will be held at the Benton County Courthouse, with an information session starting at 5:00 pm and a formal presentation starting at 6:00 pm.
- Recent activities and current milestone dates are:
  - Design Package Release: January 5, 2018 (Completed)
  - Mandatory Contractor Site Meeting Was Held on January 19, 2018 (Completed)
  - Notice to Successful Bidder: March 9, 2018 (Completed)
  - Expected Closure Construction Mobilization: April, 2018
  - Expected Closure Construction Completion: November, 2018
