Subject: Camden Update 5-21-2018

Dear Camden Citizens –

Below is a summary of items that have occurred at EWS from Saturday 5-12-2018 through Friday 5-18-2018. My previous update covered the period through Friday 5-11-2018.

Pat.

- Continued to ship Aluminum Processing Waste Cell leachate off-site for disposal
- Industrial Waste Cell leachate continued to be treated and stored
- Performed routine daily gas system and cover operation and maintenance activities
- Performed daily ammonia monitoring
- Cleaned out storm water ditch along east property boundary
- Closure Construction Activities Performed:
 - Continued clearing and grubbing borrow area
 - Continued work to expose bottom liner tie-in on Aluminum Processing Waste Cell
 - Continued placement of structural fill wedge at Aluminum Processing Waste Cell
 - Installed approximately 600 ft of gas collection line on Aluminum Processing Waste Cell
 - Continued work on the storm water channel between the Aluminum Processing Waste Cell and the Industrial Waste Cell
 - Performed surveying to document exposed liner location and gas collection trench alignment
 - Weekly construction meeting held

Please note that we are expecting to hold our first Closure Construction Site Visit at the end of May. The actual day is currently expected to be May 30th, but will depend on weather. More information will be sent out in the near future.
