**Subject:** Camden Update 6-24-2019

Dear Camden Citizens–

Below is a summary of items that have occurred at EWS from Saturday 6-15-2019 through Friday 6-21-2019. My previous update covered the period through Friday 6-14-2019. As a reminder, please note that the closure effort has been determined to be substantially complete as of the week ending June 14, 2019. Also as noted previously, punchlist items remain to be completed and they will be worked on over the next couple of weeks or so. Please be aware that TDEC will discontinue issuing weekly updates upon completion of the punchlist items. Also, TDEC will hold a wrap-up meeting to present an overview of closure activities and to answer any questions anyone may have. This meeting has been scheduled for 6:00 pm on July 11, 2019 at the Benton County Courthouse. Thank you.

Pat.

- Aluminum Processing Waste Cell leachate was shipped off-site for disposal.
- Industrial Waste Cell leachate continued to be treated and stored prior to disposal.
- Performed daily ammonia monitoring using portable monitor.
- Closure Construction Activities Performed:
  - Activities at Aluminum Processing Waste Cell:
    - Straw placement and seeding continue (approximately 75% complete).
  - Activities at Industrial Waste Cell:
    - Contractor completed placing vegetative support layer (straw placement and seeding to begin next week).
    - Surveying effort to verify thickness of vegetative layer completed.
    - Contractor completed installation of stormwater down chute.
  - General Site Construction Activities:
    - Contractor continued working on minor finish grading work.
    - Fence contractor not on site this week (fencing still approximately 90% complete).
    - Weekly construction meeting held.
