**Subject:** Camden Update 7-1-2019

Dear Camden Citizens–

Below is a summary of items that have occurred at EWS from Saturday 6-22-2019 through Friday 6-28-2019. My previous update covered the period through Friday 6-21-2019. As a reminder, please note that the closure effort has been determined to be substantially complete as of the week ending June 14, 2019. Also as noted previously, punchlist items remain but should be wrapping up shortly. Please be aware that TDEC will discontinue issuing weekly updates upon completion of the punchlist items. Also, TDEC will hold a wrap-up meeting to present an overview of closure activities and to answer any questions anyone may have. This meeting has been scheduled for 6:00 pm on July 11, 2019 at the Benton County Courthouse. Thank you.

Pat.

- Aluminum Processing Waste Cell leachate was shipped off-site for disposal.
- Industrial Waste Cell leachate continued to be treated, stored, and sent off-site for disposal.
- Performed daily ammonia monitoring using portable monitor (monitoring will be discontinued next week).
- Closure Construction Activities Performed:
  - Activities at Aluminum Processing Waste Cell:
    - Straw placement and seeding continue (approximately 90% complete).
  - Activities at Industrial Waste Cell:
    - Straw placement and seeding to begin this week (effort delayed due to recent rain).
  - General Site Construction Activities:
    - Contractor working on miscellaneous punchlist items.
    - Fence contractor not on site again this week (fencing still approximately 90% complete).
    - Weekly construction meeting held.
