Marshall/Maury
Five-Year Update to Municipal Solid Waste Regional Plans

Chapter 1: Summary

INFORMATION ABOUT THE REGION

The Solid Waste Management Act of 1991 required that all counties form a single or multi-county solid waste planning region. As a result Marshall and Maury Counties formed a two county region called the Marshall/Maury Solid Waste Planning Region, which includes their respective municipalities. The counties came together to form this region and find ways on how each region will reduce its solid waste disposal capacity by twenty-five percent. The Marshall/Maury Solid Waste Planning Region Board shall be composed of 13 members.

SUMMARY OF REGIONAL NEEDS

Regional needs to be met by the implementation of this plan include: (1) improving recycling and diversion rates, (2) educating the public on the entities in their region, and (3) improve the collection and management of problem waste in each county.

GOALS AND OBJECTIVES

The goal of the Marshall/Maury Region is to meet all the needs listed above. Also, to meet the goal and objective to help the region meet it twenty-five percent reduction goal. The State has set a new base of 1995 and a new goal year of 2003 for each region to meet their twenty-five percent reduction goal.

CURRENT AND PROPOSED SOLID WASTE MANAGEMENT

Included in this is the proposed map of the implementation schedule illustrating current and planned facilities and programs. (See attachment #1).
COLLECTION AND TRANSPORTATION
Currently, all municipalities in the region provide door-to-door pickup at least once a week. Maury County provides 9 convenience centers throughout the county for all county area residents. Marshall County provides four convenience centers to all county residents. Waste Management (was Sanifill) is the one who negotiated the contract with Marshall County to open the convenience centers.

WASTE REDUCTION

There are several waste reduction programs in the region. Recycling drop-off programs are provided in Maury and Marshall Counties, the City of Columbia, and the City of Lewisburg. Maury County operates a Class III/IV disposal facility which is used by Maury County residents and businesses.

Marshall County and Waste Management (was Sanifill) negotiated in 1996 to provide recycling drop-off facilities for Marshall County residents. Which currently there are four located in the county. (See attachment #2).

DISPOSAL CAPACITY

Marshall County’s existing Class I landfill has just received a 52-acre expansion. Cedar Ridge Landfill is a private landfill owned by Waste Management is located in Marshall County. This facility is in the process of expanding and will have a life capacity of 10-20 years.

Maury County has closed their Class I landfill in August of 1996. At this time they operate a transfer station. Also, they currently operate a Class III/IV landfill.

PUBLIC INFORMATION AND EDUCATION

Marshall County has developed a position to help educate the public about waste reduction and recycling. Morgan Thomas, is the Environmental Coordinator for Marshall County, he goes to the schools to talk to the children about waste reduction and he also informs the public on existing waste reduction programs in that county.

The Solid Waste Director for Maury County currently is taking classes on education for waste reduction. Joe Erwin, the Solid Waste Director, discusses the waste reduction efforts he has done with the public and what his plans are for the future.
PROBLEM WASTES

Problem Waste includes waste tires, automotive fluids, and lead acid batteries. Currently, in Marshall County the Highway 99 convenience center and the Old Columbia Road convenience center takes used oil. Also, TSC and Advanced Auto also takes automotive fluids plus batteries. The waste tires can be taken to any of the tire dealerships in Marshall County where they will be stored until the trailer is full then Mac's Tires takes the trailer to process the tires. A household hazardous waste day is going to be held in Marshall County on June 10, 2000.

Maury County has a tire facility located at the transfer station, which when the trailer becomes full Mac’s Tire takes the tires and processes them. At the local Wal-Mart and TSC stores used motor oil and batteries will be taken and properly disposed of. Batteries can also be taken to Kenemer Scrap and Steel. A household hazardous waste day is going to be held in Maury County on May 20, 2000.

BUDGET
See attached 10-year budget proposal. (See Attachment #3).
Chapter 2: General Information about the Region

1. Identify the region by name, and list counties and municipalities that comprise the region.

The region is the Marshall/Maury Region.

Listing the counties and their municipalities that comprise the region.

A. Marshall County
   Municipalities

   1. Lewisburg
   2. Chapel Hill
   3. Cornersville

B. Maury County
   Municipalities

   1. Columbia
   2. Mt. Pleasant
   3. Spring Hill

2. Total population for the Marshall/Maury Region: 93,757

A. Marshall County - 25,658

B. Maury County - 68,099

Source: 7/1/98 Population projections from UT Center for Business and Economic Research
3. Provide a complete list of Regional Solid Waste Board members and their term expiration dates. Top the list by stating how many members are on the board (set by the original regional resolution) and whom they represent. Then include a current list of regional board members (and any vacant positions), term of office and expiration for each, whether appointed by a county executive or mayor (and name the jurisdiction represented), whether confirmed by a county commission, or city council, and the year confirmed. Identify the chairman.

There are thirteen members on the Marshall/Maury Regional Solid Waste Board (Please see attachment #4)

A. Bob Murray, Chairman  
   City Manager of Mt. Pleasant  
   P.O. Box 426  
   Mt. Pleasant, TN 38474  
   (931) 379-7717

4. A. Has the Region formed a Part 9 Solid Waste authority?

There is no Part 9 Solid Waste Authority in the Marshall/Maury Region.

B. Has the Region dissolved a Part 9 Solid Waste Authority?

No, the Marshall/Maury Region has not dissolved a Part 9 Authority.

5. Please list three contacts for Solid Waste Information for your region.

The four contacts for Solid Waste in the Marshall/Maury Region are:

A. Terry Wallace  
   Marshall County Executive  
   1108 Courthouse Annex  
   Lewisburg, TN 37091  
   (931) 359-1279

B. Ed Harlan  
   Maury County Executive  
   101 Maury County Courthouse  
   Columbia, TN 38401  
   (931) 381-3690

C. Morgan Thomas  
   Marshall County Recycling Coordinator  
   3301 Courthouse Annex  
   Lewisburg, TN 37091  
   (931) 359-0547

D. Joe Erwin  
   Maury County Solid Waste Director  
   1198 Industrial Park Road  
   Columbia, TN 38401  
   (931) 381-5809
6. **Briefly describe the activities and workings of the region's solid waste board and/or Part 9 Authority Board if one exists. Describe the Board meeting schedule, involvement with concerned entities in planning decisions, process for addressing the public, and timeliness of submittal of Annual Progress Reports and Solid Waste Plans. In addition to planning, does the Board meet its responsibilities with regard to permit review?**

The Marshall/Maury Solid Waste Region Board meets once a year usually to approve the Annual Progress Report. In addition the board meets whenever necessary to meet the responsibility it has for permit review and to discuss the concerns of entities and planning decisions. The Annual Progress Report is processed and submitted to the State when it is due.

7. **Describe the Region's rationale for formation (its decision to be either single or multi-county). Is the current structure satisfactory?**

Marshall and Maury counties came together to form a two county region to develop a regional solid waste management system. Yes, the current structure is satisfactory.

8. **List all municipalities in the region that have door-to-door collection service. Include county and municipal population.**

<table>

</tr>
</tbody>
</table>
9.  **Describe the region, generally, geographically, and demographically.**

The region comprises 988 square miles in Central Tennessee. The Duck River flows westerly through each county. Marshall is part of a two county region. Most commercial activity centers around Lewisburg, the county seat. The Henry Horton State Park dominates the north end of the county. International Comfort Products is the county’s major employer. They have a Columbia State Community College site in Lewisburg and a Tennessee Technology Center just off the Lewisburg public square. Marshall County has access to I-65.

Maury is part of a two county region. All three municipalities center around industrial activity. On the north end of the county, Spring Hill is home of the county’s major employer Saturn. Columbia State Community College is the main campus and is very efficient to all the surrounding counties. Columbia is where most of the commercial activity takes place. Maury County also has many parks and recreation facilities that give the community a wide variety of activities to participate in. Maury County has many accesses to I-65.

10. **Does the Region (or Part 9 Authority, city or other jurisdiction within) charge a fee for solid waste services?**

No, the Solid Waste Region does not charge a fee for Solid Waste Services in either of these two counties.

11. **Describe the cost and revenues involved in public funding for solid waste programs and expenses in the Region. Be sure to include capital cost considerations, staffing requirements, and operating expenses. It may be best to go jurisdiction by jurisdiction (cities, counties, Part 9 authorities). Is the current system satisfactory? Are revenues meeting costs? What new expenses and/or new fees or revenues are needed or anticipated?**

Yes, the current system is satisfactory. Any costs that may occur will be discussed at the Marshall/Maury Solid Waste Region Meeting. *(See Attachment #3 Budget)*

12. **The Solid Waste Management Act states that each city, county, or Part 9 solid waste authority in the region shall use uniform financial accounting methods and account for solid waste activities with a named designated special revenue or enterprise fund (for publicly owned landfills or incinerators)*[T.C.A. 68-211-874(a)]. Do all relevant jurisdictions in the region meet with this requirement?**

Yes, all relevant jurisdictions in the Marshall/Maury Region meet the requirement for financial accounting methods.
13. *Include a proposed 10-year solid waste budget for the region. See Appendix A for Instructions and sample budget sheet.*

A proposed 10-year solid waste budget for the Marshall/Maury Region is attached (See attachment #3).

14. *List the contacts in the region for information regarding solid waste budgets.*

The contacts for Solid Waste Budget are:

a. **A.C. Howell**  
   Budget Director, Maury County  
   (931) 381-3690

b. **Ed Harlan**  
   Maury County Executive  
   (931) 381-3690

c. **Morgan Thomas**  
   Marshall County Recycling Coordinator  
   (931) 359-0547

d. **Freda Terry**  
   Budget Director, Marshall County  
   (931) 359-2300
Chapter 3: Waste Stream

1. For the most recent calendar year, how many tons of solid waste were generated within the region and disposed of in Class I landfills or incinerators located in or out of the region? Please “show your work” by providing a breakdown of tonnage’s and sources of information.

Marshall County

Cedar Ridge Landfill- Marshall Co. 25,315.86

Maury County

Cedar Ridge Landfill- Marshall Co. 114,975.88
BFI Middlepoint- Rutherford Co. 14,774.24

Total 155,065.98

2. Estimate the percentage of the tons reported in #1 above using the following categories:

Marshall County:

Residential: 38%
Commercial: 23%
Industrial: 35%
Institutional: 4%
Other: 
Total 100%

Maury County:

Residential: 32%
Commercial: 26%
Industrial: 32%
Institutional: 10%
Other: 
Total 100%
3. Estimate the percentage of the tons reported in #1 above using these categories:

**Marshall County**

<table>
<thead>
<tr>
<th>Category</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yard Waste:</td>
<td>10%</td>
</tr>
<tr>

<tr>
<td>Recyclables:</td>
<td>5%</td>
</tr>
<tr>
<td>White Goods:</td>
<td></td>
</tr>
<tr>
<td>Regular Municipal Solid Waste:</td>
<td>84%</td>
</tr>
</tbody>
</table>

Total: 100%

4. To calculate the total generated waste stream (for the most recent calendar year), first estimate tons annually reduced or diverted within the region.

**Marshall County**

(1) Source Reduction tons
(2) Recycling 2,729,245 tons
(3) Diversion 15,609.75 tons
(4) Unmanaged Waste tons

**Maury County**

(1) Source Reduction tons
(2) Recycling 2,729,245 tons
(3) Diversion 15,609.75 tons
(4) Unmanaged Waste tons
5. Discuss any recent demographic trends that may affect waste disposal and generation figures in the region. Are large groups of people moving into or out of the area for any special reason?

A large number of people have moved into the Marshall/Maury Area within the last few years because of industry. Marshall County has had a 19% population change in the last 8-9 years. Maury County has had a 24% population change in the last 8-9 years. The recent growth in the Middle Tennessee Area has had a significant advantage on the Marshall/Maury Region. The area is growing because of the new industries in the area.

6. Discuss the economic condition of the region. Who are major employers? Is the unemployment rate high or low? What economic factors could affect the content and volume of the waste stream and waste reduction efforts in the region?

Economic condition of the region is going very well at this time because of the recent growth in the Middle Tennessee Area. More industries are moving into the area. Major employers for Maury County are Saturn, who is number one in this county, also Columbia Specialties, and Zeneca are the top three in the county. Major employers for Marshall County are International Comfort Products, which is the largest employer in this county. Also, Cosmolab, Kantus, and Sanford Corporation. Marshall/Maury County’s unemployment rate is at a 2.8% as of October 1999. More industries moving into the region could affect the volume and waste stream. There are two reasons the region could affect the waste stream one being more industries could be recycling their materials or new industries could move into the counties and cause more waste.

7. Please list the top five contributors to the overall waste stream generated in the region and disposed in Class I landfill or incinerators (reported in #1 of this chapter). This list should be an estimate based on local inquiry and landfill records. Bear in mind that often more than one disposal facility (either in or out of the county) serves the region. The list may include major industries, prisons, colleges, major medical facilities, airports, or other institutions. For urban areas, it may be necessary to list more than five to give a full view of the county situation. Provide the following information on each contributor listed:

**Major Contributors to the region’s Waste Disposal**

- Contributor’s Name
- Contact Name, Phone Number
- Waste Types
- Estimate amount of waste, in tons, disposed in any Class I landfill or incinerator during the past calendar year
**Major Contributors to the Marshall County Waste Stream are:**

A. International Comfort Products  
   Morgan Thomas, (931) 359-0547  
   Mixed Industrial  
   1,772.11 tons

B. Kantus  
   Morgan Thomas, (931) 359-0547  
   Mixed Industrial  
   1,012.63 tons

C. Sanford  
   Morgan Thomas, (931) 359-0547  
   Mixed Industrial  
   1,012.63 tons

D. Tuscarora Plastics  
   Morgan Thomas, (931) 359-0547  
   Mixed Industrial (Foam)  
   253.16 tons

E. Hyperion  
   Morgan Thomas, (931) 359-0547  
   Mixed Industrial  
   253.16 tons

**Major Contributors to the Maury County Waste Stream are:**

A. Saturn  
   Joe Erwin, (931) 388-5809  
   Mixed Industrial

B. Zenecca  
   Joe Erwin, (931) 388-5809  
   Mixed Industrial

C. City of Columbia  
   Joe Erwin, (931) 388-5809  
   Mixed Residential

D. TN Aluminum Processors  
   Joe Erwin, (931) 381-5809  
   Mixed Industrial

E. Smelter Services  
   Joe Erwin, (931) 381-5809  
   Mixed Industrial

F. BFI  
   Joe Erwin, (931) 381-5809  
   Mixed Commercial
8. **Do jurisdictions in the region have clean up and litter prevention programs in place such as litter grant programs? If yes, please describe the program or programs briefly and list the contacts you have with the programs.**

Yes, the Marshall County’s litter grant program is handled by the Impact Center which provides jobs and training for handicapped workers in the county.

Yes, Maury County has a litter grant program, which is handled by Joe Erwin, Maury County Solid Waste Director; he uses inmates to help clean the roads.

9. **Legislation passed by the General Assembly in 1999 adds consideration of an “economic growth adjustment formula” analysis for reporting solid waste disposal figures and progress toward the 25% waste reduction and diversion goal from year to year. The economic growth formula would include factors like growth rate, employment rates, and taxable transactions in the region, in addition to population changes.**

*Does the region perceive that this option would express progress on the State’s 25% waste reduction goal in a more equitable fashion (a more fair representation of the Region’s actual progress)? Explain your answer. (More information on the proposed economic growth adjustment formula will be available from the Division of Community Assistance).*

Yes, we believe the Economic Growth Adjustment Formula would express progress toward the State’s 25% waste reduction goal because of the growth these two counties have experienced. The employment rate and the growth rate have changed significantly. We believe the formula would benefit the region.

10. **Use of a new base year (1995) and a new goal year (2003) to achieve the 25% waste reduction and diversion goal are also in the 1999 legislation. Regions may provide documentation to adjust their 1995 base year figures for progress already made in ongoing reduction programs. Explain how the proposed base year change might affect you region.**

The Marshall/Maury Solid Waste Planning Region has provided documentation to the State to adjust the 1995 base year figures. The proposed base will affect the region because of the errors that occurred during the 1995 calendar year. The error occurred in the calculation of waste produced at two local industries in Maury County. (See the attached letter sent to the State of Tennessee.) (See attachment #5).
11. List each county, city, or Part 9 Authority in the region. Discuss current reduction or diversion programs sponsored by each and the success level enjoyed by the current programs. Be sure to include information about how and to what extent programs are funded or generated revenues. If the jurisdiction has a drop off program, tell about what types of materials are collected and how much. Be sure and detail any yard waste or composting programs as the Department intends to give additional emphasis to these programs in the future. List proposed programs and discuss ten year trends and needs. Discuss how the jurisdictions in the region work together. Describe education programs and opportunities in each jurisdiction and encouragement that the commercial and industrial sectors receive from these jurisdictions. These jurisdiction-by-jurisdiction descriptions should cover all the topics listed here plus any other that would fully explain efforts in the given jurisdiction.

Counties in the Region are: Marshall County and Maury County
The Cities in Marshall County are: Lewisburg, Chapel Hill, and Cornersville.
The Cities in Maury County are: Columbia, Mt. Pleasant, and Spring Hill.

Maury County operates 9 convenience centers, which collect materials like, cardboard, household garbage, scrap metal, appliances, furniture, newspapers/magazines, aluminum cans, steel cans, tin cans, plastics, and glass. Two are located in the city limits of Columbia.
Marshall County provides a drop-off recycling program to the public. Materials taken include aluminum, plastics, white goods, scrap metal, and household garbage.
The City of Lewisburg operates a drop-off recycling center, which takes materials like glass, tin, aluminum, newspapers, and plastics. It is available to City residents only.

The two counties work well together. Marshall County gets funding through Cedar Ridge Landfill. The municipalities in Marshall County have a waste disposal fee to provide for their funding. Maury County gets funding through property taxes. Revenue is assured for ten years. For Marshall County future needs could include a facility with a baler for cardboard and paper. Also, the possibility in the future of more bins at the convenience centers and schools in Marshall County to increase the recycling numbers.
Chapter 4: Collection and Transportation

1. List collection services available in the region (in the county or counties and cities within) and basic information regarding the services. The table heading below provides an example of how the information could be shown. The first column, marked “Service,” is for identification, like house-to-house, convenience centers, or green boxes. The second column “Available to” indicates who is served by the service like: the City of X (list county names if multi-county region), rural residents along Z Road and Y Pike, or individual customers. The third column describes who pays for the service, whether local government or individual customers. The fourth column provides for a brief description which may include a number (of convenience centers, for example) and general geographic description (like “one in the north and one in the south” or “throughout the county”). For private haulers, include the name of the hauler in the description column, the phone number, and number of trucks in the fleet serving this region. It is not necessary to make a line for each convenience center and for each green box in the county.

2. Describe how each county in the region meets the collection assurance requirements mandated in the Solid Waste Management Act of 1991 (T.C.A. 68-211-851). See Appendix B-8 for a fact sheet regarding minimum collection requirements.

Yes, each county in the region meets the Collection assurance requirements mandated in the Solid Waste Act of 1991. Marshall County has one convenience center for every 6,500 residents well below the minimum of 12,000 in addition to this the three municipalities offer curbside service and there are a number of private haulers who will service rural areas for a monthly fee. Maury County operates ten convenience centers. All municipalities in Maury County provide door-to-door collection service. It also operates a Class III/IV facility.

3. Based on the information available and your experience working in the county, discuss collection needs in the region, and trends anticipated over the next ten years. This is your opportunity to discuss aspects of the county (or counties) collection system(s) that were perhaps missed in previous questions and to help planners with new directions the county and its region may wish to pursue. City systems within the region may also be relevant here. This is also a good place to discuss a system that is working particularly well.

Recycling grants will hopefully help get equipment that is needed to help meet the 25% reduction goal. Cedar Ridge Landfill is undergoing an expansion so their life will be 10-20 years, so we expect our current agreement with them to last. The two counties work really well together.
Chapter 5: Recycling

1. *Does the region (or county, city, or Part 9 Authority within) have a recycling or waste reduction coordinator? If yes, please provide the following information:*

   - **Name**
   - **Title/Employer**
   - **Phone Number**
   - **Address**

   Yes, each county in the region has a recycling or waste reduction coordinator.

   Name: Morgan Thomas  
   Title/Employer: Environmental Coordinator for Marshall County  
   Phone Number: (931) 359-0547  
   Address: 3301 Courthouse Annex  
     Lewisburg, TN 37091

   Name: Joe Erwin  
   Title/Employer: Maury County Solid Waste Director  
   Phone Number: (931) 381-1520  
   Address: 1198 Industrial Park Road  
     Columbia, TN 38401

2. *List the waste reduction programs in the region. The description should indicate whether the program is publicly or privately sponsored; if the program is open to all or to a limited group; if materials are dropped off or picked up; if the program is curbside; if the owner/sponsor is a government recycling or reduction program; etc.*

   *For each recycling program, please provide the following information:*

   Program Name: Marshall County Solid Waste  
   Contact: Morgan Thomas  
   Phone Number: (931) 359-0547  
   Address: 3301 Courthouse Annex, Lewisburg, TN 37091  
   Items Accepted: Plastics #1 & #2, tin, aluminum, white goods, scrap metal, newspapers, magazines, oil, white paper, and used tires.  
   Program Description: All items except white paper and used tires are collected at the convenience centers. White paper is collected at area schools, and tires are collected at tire dealerships.
Program Name: City of Lewisburg  
Contact: Eddie Fuller  
Phone Number: (931) 359-1544  
Address: E. Church Street  
Items Accepted: glass, tin, aluminum, plastics #1 & #2, and newspapers  
Program Description: Drop-Off Center next to Lewisburg Firehall

Program Name: Tuscarora, Inc.  
Phone Number: (931) 270-2289  
Address: 521 W. Church Street  
Items Accepted: Plastic #6 P5  
Program Description: Local Packaging manufacturer, which has bins to recycle polystyrene, which is used in their manufacturing process.

Program Name: Maury County Recycling  
Contact: Joe Erwin  
Phone Number: (931) 381-1520  
Address: 1198 Industrial Park Road, Columbia, TN 38401  
Items Accepted: Cardboard, newspapers, glass, clothing, plastics #1 & #2, Aluminum Cans, steel cans, and appliances and scrap metals  
Program Description: all items are accepted at convenience centers in Maury County or to the baling facility.

3. Based on the information available and your experience working in the county, please describe progress and setbacks in recycling and reduction efforts in the region. Be sure and include marketing efforts on the part of local programs, their principal end-users, successes and failures in marketing and hope for assistance or change in marketing. Do jurisdictions in the region cooperate on marketing efforts? Feel free to describe unusual or successful programs that others may wish to emulate. Please include any future plans for additional recycling, reduction, or end-use programs you are aware of.

Being a rural county Marshall has only had convenience centers about three years. So, a lot of time is spent on educating people and getting them to stop dumping on their own property or illegally. Because of this not as much time is spent on recycling as they would like.

As for Maury County, they continue its progress with the waste tire collection. Mac’s Tires takes the tires. The county also operates nine convenience centers that take recyclables. More emphasis is needed on education about recycling.
4. The law requires that every county within the region have at least one recycling drop-off facility available to all county residents. The facility does not have to be publicly owned or collect a specified volume or type of recyclable. However, a collection facility must be available for a least one material that is actually recycled (marketed and reused). Please list recycling collection site(s) for each county in the region and describe the facility or program (a similar question is asked in regional annual progress reports).

Marshall County Drop-off Recycling

</tr>
</tbody>
</table>
3. Based on the information available and your experience working in the region, evaluate disposal needs. Is efficient disposal assured at a reasonable price for the ten year planning horizon? What changes in the disposal system are being contemplated? What changes should be contemplated with consideration to anticipated growth and disposal demands?

Yes, efficient disposal is assured at a reasonable price for the ten year planning horizon. Cedar Ridge Landfill is currently undergoing an expansion to increase its life.

4. Of the facilities listed in this chapter, which have planned capacity assurance of less than ten years? Five years?

None of the facilities listed have capacity assurance of less than ten years. Cedar Ridge Landfill in Marshall County has a life expectancy of 10-20 years.

5. Are all publicly held Class I landfills or incinerators in the region accounting for financial activities in an enterprise fund as required by law?

Yes, the Cedar Ridge Landfill is accounting for financial activities in an enterprise fund as required by law.
Chapter 7: Problem Wastes

1. Has this county taken advantage of the State’s household hazardous waste mobile collection service in the last two years? Please describe.

Yes, both counties in the region have taken advantage of the State’s household hazardous waste mobile collection service in the last two years. The program in Maury County has been a success. In 1999 the program’s date was May 15. Maury County’s household hazardous waste day will be May 20, 2000. Marshall County’s Household hazardous waste days have been very successful. Marshall County’s Household hazardous waste day will be May 27, 2000.

2. Does a jurisdiction within the region operate a permanent household hazardous waste collection center? If yes, please provide the following information:

No, a jurisdiction in the region does not operate a permanent household hazardous waste collection center.

3. Briefly discuss the region’s (and jurisdictions within) level of success with household hazardous waste collection and level of satisfaction with the State program. Include changes area officials would like to make or see made. Describe plans for a local household hazardous waste program.

Marshall and Maury counties are very satisfied with the State’s program. This year Maury County’s household hazardous date is May 20, 2000. Marshall County’s household hazardous waste day will be June 10, 2000. Marshall County is satisfied with the program except they have no idea of the tonnage from the State showing amounts collected or how many households served.

4. Describe the region’s efforts to see that waste tire collection mandates are met. Bear in mind that at least one site (public and private) per county must be available to local citizens for the county or counties to be in compliance with the law. List the site(s) available. Describe what happens to waste tires in the region once they are collected.

For Marshall County there is a tire trailer located at all of their tire dealers and when they get full they are swapped out with an empty trailer and get processed by Mac’s Tires.

Maury County has just opened a new tire facility located at the transfer station, once the trailer gets full it is picked up and processed by Mac’s Tire.
5. Discuss the region's level of satisfaction with waste tire collection efforts in the area and the State waste tire program. What changes are foreseen? What changes are needed?

   Marshall County and the tire dealers in the county are extremely satisfied with the tire program. Marshall County does have two illegal tire dumps, which have been listed with the State.

6. Do Counties in the region have a problem with waste tire dumping? If yes, describe specific sites and discuss the problem.

   Marshall County has two specific sites they are concentrating on. The sites have been looked at. One site is located on Reese Road near the Interstate and the other is located in the north end of the county.

7. Describe the region's efforts to see that oil and auto fluid collection site mandates, and lead acid battery collection site mandates, are met. Bear in mind that at least one site (public or private) per county must be available to local citizens for the county or counties to be in compliance with the law. List the site(s) available.

   The sites available in Marshall County are as follows: Used Oil can be taken to two of the convenience centers one on Hwy 99 and the other on Old Columbia Road. TSC and Advanced Auto takes used oil and batteries.

   The sites for Maury County include Wal-Mart and TSC will take oil and batteries. Kenemer Scrap and Steel will also take batteries.
Chapter 8: SOLID WASTE EDUCATION

1. Please list persons or organizations that are active in efforts to educate the public regarding solid waste matters in the region. It is appropriate to list a program like Keep Tennessee Beautiful (formerly Clean Tennessee), Keep America Beautiful, or Tennessee Solid Waste Education Program (TNSWEP). It is also appropriate to list individual like a reporter, an extension agent, a school teacher, or a local official who has made special efforts to help educate school children or adults in the county regarding solid waste issues. Include any in-house industrial solid waste education programs. Describe the nature of each effort and level of participation.

- Name
- Organization/sponsor
- County(ies)
- Phone Number
- Address
- Target participants
- Description of activities

Marshall County’s program is:

- Name Morgan Thomas
- Organization/sponsor Environmental Coordinator
- County(ies) Marshall County
- Phone Number (931)359-0547
- Address 3301 Courthouse Annex
- Target participants K-5 and adults
- Description of activities Meets with every K-5 class in the county as well as numerous professional and social organizations. Uses materials from TNSWEP, Pathway’s to Education Book, and Clean Tennessee to educate on recycling and solid waste.

Maury County’s program is:

- Name Joe Erwin
- Organization/sponsor Solid Waste Director
- County(ies) Maury County
- Phone Number (931) 381-1520
- Address 1198 Industrial Park Road
- Target participants school children
- Description of activities
2. Based on the information available and your experience working in the region, please describe outstanding needs in the area of public solid waste education. What progress has been made and what is planned? Should more be done to keep the public informed? How can the State and technical assistance agencies assist in this effort? Has the county or its region filed an education action plan and made use of the Division of Community Assistance’s Pathway’s to Education book?

As stated earlier Marshall County needs to spend more time and effort getting our garbage disposed of properly. I believe once we get people to take it to the proper places we will be able to concentrate on recycling. Also, due to the low price of recyclables we are not able to recycle glass, paper, or cardboard to the extent we would like.

As for Maury County more should be done to keep the public informed. The county needs more emphasis on education and restructuring taking place they will do this. They anticipate some progress this year.
Chapter 9: FLOW CONTROL AND PERMIT REVIEW

1. *Does the region or jurisdiction within make any attempt to control the flow of waste? If yes, please explain.*

   Yes, the attempt to control the flow of waste is made in the region. The regional board reviews contracts with solid waste carriers and disposal facilities for the region to help them make decisions that will benefit the region as a whole.

2. *Does the region foresee any outstanding issues with regard to permit review or flow control?*

   No, the region does not foresee any outstanding issues with regard to permit review or flow control.
CHAPTER 10: FIVE-YEAR PLAN UPDATE REVIEW

1. Describe the required public hearing held after the revised plan (Five-Year Update) was completed. The meeting should be held in a central location in the region and open to the general public. What day was the meeting held? Where? What was the level of participation? Summarize comments. Include a copy of the public notice, and indicate when and where it was published.

   The public meeting was held Wednesday January 5, 2000 at 10:00 a.m. at the Marshall County Courthouse Annex to discuss the Five Year Update to Municipal Solid Waste Regional Plans. Lisa Cross of South Central Tennessee Development District reviewed the completed Five Year Update Plan. The floor was opened for questions and comments. All participants expressed appreciation for the Plan. The meeting was adjourned. Included is a copy of the public notices put in the Marshall County paper the Lewisburg Tribune and the Maury County paper the Daily Herald. Also, included is the sign in sheet from the public meeting. (See attachment #7).

2. Local planning commissions in the region should be made aware of the Five-Year Update and given an opportunity to review it. Was this done? Include comments and responses.

   Mr. Morgan Thomas explained the Five Year Update to the Marshall County Planning Commission, they had time to review it and make comments. All comments were favorable.

3. Please include a copy of a resolution from every county in the region approving the Five-Year Plan update. The Department will not approve your plan without this documentation. If a Part 9 Authority has been formed, please include a copy of the resolution of approval from the Authority Board of Directors.

   A copy of the resolution from the Board of County Commissioners of Marshall County, TN approved the Five Year Update to Marshall/Maury Ten Year Solid Waste Plan on January 24, 2000. Also, a copy of the resolution from the Maury County Legislative Board approving the Five Year Update of the Marshall/Maury Solid Waste Plan on February 22, 2000. (See attachment #8 & #9).

ATTACHMENT #5
LETTER TO STATE ABOUT NEW BASE YEAR
February 18, 2000

Mr. Robert Murray, Chairman
Marshall/Maury County Solid Waste Planning Region
P. O. Box 426
Mt. Pleasant, TN 38474

RE: Determination of 1995 Base Year Disposal Tonnage

Dear Mr. Murray:

We have reviewed the submittal requesting credits and adjustments to the Marshall/Maury County Region 1995 base year tonnage, along with the information we have from the 1995 Annual Solid Waste Progress Reports. After consideration of documentation provided with the submittal, in addition to documentation for the 1995 Annual Solid Waste Progress Report, we have determined the disposal tonnage for Marshall/Maury County Region 1995 Base Year to be 166775.98 tons. This number, along with consideration of waste reduction program efforts, will be used to gauge the Region’s progress toward reducing solid waste disposal between Base Year 1995 and Goal Year 2003.

If you have any questions or concerns, please contact me at (615) 532-0463, or Becky Gorham at (615) 532-0744.

Sincerely,

Karen Grubbs
Waste Reduction Section Manager

401 Church Street
Nashville, TN 37243-1533

Dear Mr. Ron Graham:

The Marshall/Maury Solid Waste Planning Board is requesting an adjustment of its base year numbers. We found an error in the calculations of waste produced at two local industries (Smelter Services Corporation and TN Aluminum Processors). An incorrect ratio of yards to tons was used in the 1995 report.

Incorrect Ratio
31,109.92 yards to 8,074 tons  TN Aluminum
30,930.60 yards to 7,734.65 tons  Smelter Services Corporation

In 1995, Cedar Ridge Landfill only reported yardage, so an error occurred when the yardage figure for these two companies was converted to tons. A ratio of approximately 4:1 was used, which is accurate for MSW, but does not fit the type of special waste produced at TN Aluminum or Smelter Services Corporation.

In researching, the 1995 base year numbers we requested from Cedar Ridge Landfill a 1995 tonnage report to show us tons and yards. We have enclosed copies of the original report and the report, which shows yards and tons.

Our calculations show the Marshall/Maury 1995 base year should be adjusted by 52,288.31 tons. If you have any questions please feel free to contact Mr. Morgan Thomas at (931) 359-0547.

Sincerely,

Bob Murray, Chairman
MAURY COUNTY

FROM MARSHALL AND MAURY COUNTIES
RESOLUTION 11-92-10

A RESOLUTION
CREATING MARSHALL, MAURY COUNTIES' MUNICIPAL SOLID WASTE PLANNING REGION

WHEREAS, the adoption of the Subtitle D landfill regulations by the United States Environmental Protection Agency and companion regulations adopted by the Tennessee Solid Waste Control Board will impact on both the cost and method of disposal of municipal solid waste; and

WHEREAS, at the urging and support of a coalition of local government, environmental, commercial, and industrial leaders, the 97th Tennessee General Assembly enacted T.C.A. § 68-211-801 et. seq., title "Solid Waste Management Act of 1991"; and

WHEREAS, with the view that better planning for solid waste will help control the additional costs that will be imposed by the new landfill regulations, help protect the environment, provide and improve solid waste management system, better utilize our natural resources, and promote the education of the citizens of Tennessee in the areas of solid waste management including the need for and desirability of reduction and minimization of solid waste, local government in Tennessee supported and work for the passage of this Act; and

WHEREAS, one of the stated public policies of this Act is to institute and maintain a comprehensive, integrated, statewide program for solid waste management; and

WHEREAS, as per T.C.A. § 68-211-811, the nine development districts in the State of Tennessee have completed a district needs assessment which are inventories of the solid waste systems in Tennessee; and

WHEREAS, Marshall County's Board of County Commissioners has given consideration to the needs assessment prepared by the South Central Development District; and

WHEREAS, T.C.A. § 68-211-813, requires that counties in the State of Tennessee form municipal solid waste regions no later than December 12, 1992; and

WHEREAS, the Act's stated preference is the formation of multi-county regions with counties having the option of forming single or multi-county municipal solid waste regions; and

WHEREAS, the State of Tennessee will provide grant monies of varying amounts to single county, two county, and three or more county municipal solid waste regions to assist these regions in developing their municipal solid waste region plans; and
WHEREAS, the primary and prevailing purpose of the municipal solid waste regions are the preparation of municipal solid waste regional plans which among other requirements must identify how each region will reduce its solid waste disposal per capita by twenty-five percent (25%) by December 31, 1995, and a planned capacity assurance of its disposal for a ten (10) year period; and

WHEREAS, the development of a municipal solid waste regional plan that results in the most cost effective and efficient management of municipal solid waste is in the best interest of the citizens of Marshall County.

NOW, THEREFORE BE IT RESOLVED, by the Board of County Commissioners of Marshall County, Tennessee, acting pursuant to T.C.A. §68-211-801 et seq., that there is hereby established a Municipal Solid Waste Region for and by Marshall, Maury Counties, Tennessee; and

BE IT FURTHER RESOLVED, that this Resolution by the Boards of County Commissioners of Marshall, Maury Counties evidences and constitutes the agreement of Marshall, Maury Counties in the joint formation of a multi-county municipal solid waste region; and

BE IT FURTHER RESOLVED, that pursuant to T.C.A. §68-211-813(b)(1), a Municipal Solid Waste Region Board is hereby established to administer the activities of this Region; and

BE IT FURTHER RESOLVED, that this Municipal Solid Waste Region Board shall be composed of ___ members; and

BE IT FURTHER RESOLVED, that pursuant to T.C.A. §68-211-813(b)(1) and as part of the participating counties' agreement, as evidenced and constituted by this Resolution, the Municipal Solid Waste Region Board shall be composed of the following number of members representing their respective County and, in the instance of a City or Town which collects or provides disposal services through its own initiative or by contract, the number of members representing the cities or towns:

Marshall County --------- 4 members
Maury County --------- 3 members
Leedsburg -------------- 1 member
Chapel Hill------------- 1 member
Cornersville------------ 1 member
Columbia--------------- 1 member
Mt. Pleasant------------- 1 member
Spring Hill------------- 1 member

BE IT FURTHER RESOLVED, that the Municipal Solid Waste Region Board members shall be appointed by the County Executive of the respective county the member shall represent and by the Mayor of the respective city or town the member shall represent, and, that the members so appointed, shall be approved by the respective Board of County Commissioners and municipal governing bodies; and
RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MARSHALL COUNTY, TENNESSEE, this 16TH day of NOVEMBER, 1992, the welfare of the citizens of Marshall County requiring it.

RESOLUTION NO. 22

A RESOLUTION

CREATING MARSHALL/MAURY COUNTIES' MUNICIPAL SOLID WASTE PLANNING REGION

WHEREAS, the adoption of the Subtitle D landfill regulations by the United States Environmental Protection Agency and companion regulations adopted by the Tennessee Solid Waste Control Board will impact on both the cost and method of disposal of municipal solid waste; and

WHEREAS, at the urging and support of a coalition of local government, environmental, commercial, and industrial leaders, the 97th Tennessee General Assembly enacted T.C.A. §68-211-801 et. seq. title "Solid Waste Management Act of 1991"; and

WHEREAS, with the view that better planning for solid waste will help control the additional costs that will be imposed by the new landfill regulations, help protect the environment, provide and improve solid waste management system, better utilize our natural resources, and promote the education of the citizens of Tennessee in the areas of solid waste management including the need for and desirability of reduction and minimization of solid waste, local government in Tennessee supported and work for the passage of this Act; and

WHEREAS, one of the stated public policies of this Act is to institute and maintain a comprehensive, integrated, statewide program for solid waste management; and

WHEREAS, as per T.C.A. §68-211-811, the nine development districts in the State of Tennessee have completed a district needs assessment which are inventories of the solid waste systems in Tennessee; and

WHEREAS, Maury County's Board of County Commissioners has given consideration to the needs assessment prepared by the South Central Development District; and

WHEREAS, T.C.A. §68-211-813, requires that counties in the State of Tennessee form municipal solid waste regions no later than December 12, 1997; and

WHEREAS, the Act's stated preference is the formation of multi-county regions with counties having the option of forming single or multi-county municipal solid waste regions; and
BE IT FURTHER RESOLVED, that the members of the Board of the Municipal Solid Waste Region shall serve a six year term except that, as pursuant to T.C.A. §68-211-813(b)(1) as a part of the participating counties agreement, as evidenced and constituted by this Resolution, the following shall be the initial terms of office:

One (1) member each from the cities of Mt. Pleasant, Cornersville, Spring Hill and Chapel Hill for a two (2) year term,
One (1) member each from the City of Lewisburg and the City of Columbia for a term of four (4) years, and
One (1) member each from Maury County and Marshall County for a four year term, and
Two (2) members each from Maury and Marshall County for a six (6) year term, and
One (1) member from Marshall County for a 2 year term

BE IT FURTHER RESOLVED, that this Municipal Solid Waste Region Board shall have all powers and duties as granted it by T.C.A. §68-211-813 et. seq., and, as part of the participating counties' agreement, as evidenced and constituted by this Resolution, it shall have the additional rights and is empowered to utilize existing governmental personnel, services, facilities, and records of the counties which are parties to this agreement and to employ or contract with persons, private consulting firms, and/or governmental, quasi-governmental, and public entities and agencies in the performance of its duty to cause a municipal solid waste region plan to be produced; and

BE IT FURTHER RESOLVED, that at the Municipal Solid Waste Region Board's initial organizational meeting it shall select from its members a chair, vice-chair, and secretary and shall cause the establishment of a municipal solid waste advisory committee whose membership shall be chosen by the Board and whose duties are to assist and advise the Board; and

BE IT FURTHER RESOLVED, that the Municipal Solid Waste Region Board, in the furtherance of its duty to produce a municipal solid waste region plan, is authorized to apply for and receive funds from the State of Tennessee, the federal government, the counties and municipalities that are within the region, and to apply for and receive donations and grants from private corporations and foundations; and

BE IT FURTHER RESOLVED, that upon the passage of this Resolution and at no later date than December 31, 1992, the County Clerk of Marshall County shall transmit a copy of this Resolution to the Tennessee State Planning Office.
donations and grants from private corporations and foundations; and

BE IT FURTHER RESOLVED, that upon the passage of this Resolution and at no later date than December 31, 1992, the County Clerk of Maury County shall transmit a copy of this Resolution to the Tennessee State Planning Office.

RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MAURY COUNTY, TENNESSEE, this 16th day of December, 1992; the welfare of the citizens of Maury County requiring it.

JAMES L. BAILEY, JR., CHAIRMAN
MAURY COUNTY COMMISSION

NANCY W. THOMPSON
MAURY COUNTY CLERK

Approved for entry this 16th day of December, 1992.

SAM D. KENNEDY, MAURY COUNTY EXECUTIVE
BE IT FURTHER RESOLVED, that the Municipal Solid Waste Region Board members shall be appointed by the County Executive of the respective county the member shall represent and by the Mayor of the respective city or town the member shall represent and, that the members so appointed, shall be approved by the respective Board of County Commissioners and municipal governing bodies; and

BE IT FURTHER RESOLVED, that the members of the Board of the Municipal Solid Waste Region shall serve a six year term except that, as pursuant to T.C.A. §68-211-813(b)(1) as a part of the participating counties agreement, as evidenced and constituted by this Resolution, the following shall be the initial terms of office:

One (1) member each from the cities of Mt. Pleasant, Cornersville, Spring Hill and Chapel Hill for a two (2) year term,
One (1) member each from the City of Lewisburg and the City of Columbia for a term of four (4) years, and
One (1) member each from Maury County and Marshall County for a four year term, and
Two (2) members each from Maury and Marshall County for a six (6) year term, and
One (1) member from Marshall County for a two (2) year term.

BE IT FURTHER RESOLVED, that this Municipal Solid Waste Region Board shall have all powers and duties as granted it by T.C.A. §68-211-813 et. seq., and, as part of the participating counties agreement, as evidenced and constituted by this Resolution, it shall have the additional rights and is empowered to utilize existing governmental personnel, services, facilities, and records of the counties which are parties to this agreement and to employ or contract with persons, private consulting firms, and/or governmental, quasi-governmental, and public entities and agencies in the performance of its duty to cause a municipal solid waste region plan to be produced, and

BE IT FURTHER RESOLVED, that at the Municipal Solid Waste Region Board’s initial organizational meeting it shall select from its members a chair, vice-chair, and secretary and shall cause the establishment of a municipal solid waste advisory committee whose membership shall be chosen by the Board and whose duties are to assist and advise the Board; and

BE IT FURTHER RESOLVED, that the Municipal Solid Waste Region Board, in the furtherance of its duty to produce a municipal solid waste region plan, is authorized to apply for and receive funds from the State of Tennessee, the federal government, the counties and municipalities that are within the region, and to apply for and receive
WHEREAS, the State of Tennessee will provide grant monies of varying amounts to single county, two county, and three or more county municipal solid waste regions to assist these regions in developing their municipal solid waste region plans; and

WHEREAS, the primary and prevailing purpose of the municipal solid waste regions are the preparation of municipal solid waste regional plans which among other requirements must identify how each region will reduce its solid waste disposal per capita by twenty-five percent (25%) by December 31, 1995, and a planned capacity assurance of its disposal for a ten (10) year period; and

WHEREAS, the development of a municipal solid waste regional plan that results in the most cost effective and efficient management of municipal solid waste is in the best interest of the citizens of Maury County.

NOW, THEREFORE BE IT RESOLVED, by the Board of County Commissioners of Maury County, Tennessee, acting pursuant to T.C.A. §68-211-801 et seq., that there is hereby established a Municipal Solid Waste Region for and by Marshall/Maury Counties, Tennessee; and

BE IT FURTHER RESOLVED, that this Resolution by the Boards of County Commissioners of Marshall, Maury Counties evidences and constitutes the agreement of Marshall, Maury Counties in the joint formation of a multi-county municipal solid waste region; and

BE IT FURTHER RESOLVED, that pursuant to T.C.A. §68-211-813 (b)(1), a Municipal Solid Waste Region Board is hereby established to administer the activities of this Region; and

BE IT FURTHER RESOLVED, that this Municipal Solid Waste Region Board shall be composed of 13 members; and

BE IT FURTHER RESOLVED, that pursuant to T.C.A. §68-211-813 (b)(1) and as part of the participating counties’ agreement, as evidenced and constituted by this Resolution, the Municipal Solid Waste Region Board shall be composed of the following number of members representing their respective County and, in the instance of a City or Town which collects or provides disposal services through its own initiative or by contract, the number of members representing the city or towns:

ATTACHMENT #7
PUBLIC NOTICE
Flush of water mains to continue after holidays

Lewisburg Water and Wastewater wishes to advise its customers served outside the City Limits of Lewisburg that flushing of water mains will begin on December 27 and continue through December 30. In case of inclement weather, flushing will be continued the following week.

They want to advise you that there is no cause for alarm when water is seen gushing from fire hydrants during this period of required flushing. They also wish to advise you that if discolored water comes from your water fixtures, the water is not contaminated. However, they suggest that you do not wash your clothes until the water has cleared. The discolored water should clear by letting the water run for a short time.

Public Hearing Notice

5-Year Update to Municipal Solid Waste Plans

There will be a public hearing at 10:00 a.m. on Wednesday, January 5, 2000 in the Marshall County Courthouse Annex, Lewisburg, to discuss the Marshall/Maury Five-Year Update to Municipal Solid Waste Regional Plan.

The purpose of this hearing is to review the plan and to receive citizen input. Marshall and Maury Counties do not discriminate. The location of the meeting is accessible to persons with disabilities. Special accommodations may be provided to persons with disabilities by contacting Terry Wallace, County Executive of Marshall County at (931) 359-1279.

COMMUNITY DEVELOPMENT BLOCK GRANT - PUBLIC MEETING NOTICE

The City of Mount Pleasant, Tennessee will hold a public meeting at 7:00 p.m. Thursday, January 3, 2000 in the courtroom of the Mount Pleasant City Hall to discuss the Community Block Grant (CDBG) Program administered by the Tennessee Department of Economic and Community Development. The purpose of this meeting is to discuss the guidelines of the program and solicit input from area residents regarding potential uses of CDBG funds. CDBG funds can be used for water line extensions, sewer line improvements, water and sewer line improvements, housing rehabilitation and other community development projects such as fire protection, drainage, rural health departments, job training, etc.

All residents or entities with projects are encouraged to attend this meeting or call suggestions to City Planner, Carl Martin, Mount Pleasant City Hall, P.O. Box 426, Mount Pleasant, TN 38074. The City of Mount Pleasant does not discriminate.

All residents or entities with projects are encouraged to attend this meeting or call suggestions to City Planner, Carl Martin, Mount Pleasant City Hall, P.O. Box 426, Mount Pleasant, TN 38074.
