RE: CLASS 2 PERMIT MODIFICATION

Permittee: AGC Flat Glass North America, Inc.
Facility: Former AGC Greenland Plant Hazardous Waste Disposal Unit
Owner: Cardinal FG Company
Operator: AGC Flat Glass North America, Inc.
Location: 600 Cardinal Way Road, Church Hill, Tennessee 37642
Type: Post-Closure
Units: Solid Waste Management Units and Areas of Concern
EPA ID Number: TND037909348
Permit Number: TNHW-169
Modification Type: Class 2
Modification Number: 2 (C-190)

Dear Mr. Correnti and Mr. Hatcher,

The Division of Solid Waste Management (DSWM) has reviewed your request for a Class 2 Permit Modification, dated January 31, 2025, and received by the DSWM on April 11, 2025. This request is to modify Hazardous Waste Management Permit TNHW-169 in accordance with Tennessee Hazardous Waste Management Rule 0400-12-01-.07(9)(c)5(ii). The purpose of the modification is to update the Post-Closure Corrective Action Plan, Attachment 7, to include a remedy of In-Situ Chemical Oxidation for contaminated environmental media.

Enclosed is the Class 2 permit modification for the referenced permit. This modification restructures Attachment 7, Post-Closure Corrective Action Plan, of the current permit into two components, Attachments 7.1 and 7.2. Attachment 7.1, Post-Closure Corrective Action Plan was modified to include a summary of the In-Situ Chemical Oxidation remedy and implementation schedule. Attachment 7.2, "Revised Injection Work Plan – Former AGC Greenland Plant Hazardous Waste Disposal Unit" was added to include the work plan for the In-Situ Chemical Oxidation remedy. Additionally, two editorial revisions were made to the Table of Contents to include a page number for Subsection III.F, Notices and Certifications and to correct the page number for Subsection III.E, Specific Conditions for Post-Closure Care. This modification is in accordance with Tennessee Hazardous Waste Management Rule 0400-12-01-.07(9)(c) and became effective March 13, 2026.

In accordance with Tennessee Hazardous Waste Management Rule 0400-12-01-.07(9)(c)5(ii)(II), the permittee must send a notice of the modification request, including actual dates of the public comment period, to all persons on the facility mailing list maintained by the Commissioner and to the appropriate units of State and local government as specified in Rule 0400-12-01-.07(7)(e)3(i)(II) through (V) of this rule. In addition, the permittee must publish this notice in a local newspaper of general circulation. This notice must be mailed and published within 7 calendar days of approval of the modification. The permittee must provide a copy of the public notice and a signed statement stating that the facility has mailed the public notice to the mailing list to the DSWM within 10 days of the public notice issuance.

If you have any questions or comments, please contact me by email at Brett.Harris@tn.gov or by phone at 615-393-9221. For any questions regarding public notice requirements, please contact Rebekah Poston at Rebekah.Poston@tn.gov.

Sincerely,

Brett Harris
Hazardous Waste Program Manager
