

Dear

County is preparing the 2023 Annual Progress Report (APR) in accordance with TCA § 68-211-861. As such, each county reports efforts toward meeting a 25% waste reduction and recycling goal. All local governments, businesses and industry actively engaged in the recovery or recycling of materials are encouraged to contribute their 2023 waste reduction and diversion efforts and be included in the measurement toward achieving the goal. Enclosed/Attached is a Recycling and Diversion Survey that can easily be completed and submitted for inclusion in the APR.

Inclusion in the APR may benefit local business or industry through improved end markets for recovered materials, identification of needed infrastructure to better manage materials being generated, and increased opportunities for materials exchanges with other industries that needing feedstock. The county will benefit toward achieving the 25% waste reduction and diversion goal, by demonstrating a need for collection or processing infrastructure, and by identifying opportunities for improved marketing or diversion.

Please submit the completed Recycling and Diversion Survey by \_\_\_\_\_ to ensure inclusion in the APR.

If you have any other questions regarding the form or need clarification you may contact \_\_\_\_\_ at \_\_\_\_\_ or by email at \_\_\_\_\_.

You may also contact the Division of Solid Waste Management for more details:

Thank you for your efforts toward helping \_\_\_\_\_ County and the state achieve their waste reduction and diversion goals.

Sincerely,

**MUNICIPAL SOLID WASTE REGION**  
**RECYCLING & DIVERSION SURVEYS**

The Recycling & Diversion Surveys are to be completed by all collectors or primary collection point recyclers. Processors and end-users are exempt from having to complete this report. The survey should be completed early enough to allow the Annual Progress Report (APR) to be reviewed, approved by the solid waste board for the region and submitted to the Tennessee Department of Environment prior to March 31 of the year immediately following the reporting year.

Should the Region have difficulty collecting the information the statute allows the Region to compel those actively engaged in the collection, transportation, and/or disposal of solid waste to provide the necessary information [T.C.A. § 68-211-871(c) and (d)].<sup>1</sup>

**Amounts can be reported in tons, pounds (Lbs.), cubic yards (Yd<sup>3</sup>) or gallons. Make sure the correct unit of measure is indicated.**
