Reference: EPA Identification Number: TND003095635
Hazardous Waste Permit Number: TNHW-157
Class I Modification Number: 12 (A-1105)

Because you have requested to be kept informed of such matters, Nuclear Fuel Services, Inc., (NFS) is providing the required notice for a Class I modification to its existing Hazardous Waste Management Part B Permit (TNHW-157).

Two supporting documents of the permit, the NFS Emergency Plan, NFS-GH-903, and NFS Emergency Procedure, NFS-HS-E-05, "Spill Response and Reporting," were updated with new emergency contact information and current operational status of the NFS Facility.

NFS submitted a revised copy to the Division of Solid Waste Management (DSWM). This document has been designated as "Official Use Only" and cannot be released to the public due to the sensitive nature. The revision to this document does not alter permit conditions or reduce the capacity of the NFS facility to protect human health or the environment. The DSWM has reviewed and approved the changes as a Class I Permit modification.

Thank you for your interest in our facility.

Sincerely,

NUCLEAR FUEL SERVICES, INC.
