Representatives from Naval Support Activity Mid-South and the Navy will host a meeting to discuss plans to renew and update the current RCRA Permit with the state of Tennessee.

The proposed renewal modifications include implementing final remedies at six solid waste management units (SWMUs) and one Area of Concern (AOC) managed under the Navy's Base Realignment and Closure and Environmental Restoration Programs.

The purpose of the pre-application meeting is to inform the community of the proposed permit renewal and modification activity, and to solicit input from the community.

The Pre-Application meeting is scheduled for Friday, March 12, 2021 from 6:00 to 7:00 p.m. The meeting will be virtual hosted on a WebEx video platform due to COVID-19 social distancing safety requirements.
