The Tennessee Department of Environment and Conservation's (TDEC) Division of Solid Waste Management (DSWM) has reissued a hazardous waste storage permit to Safety-Kleen Systems, INC (SKS) for the storage of hazardous waste. SKS (EPA ID TND000614321) is located at 3536 Fite Road in Millington, Shelby County, Tennessee 38053. This action follows a 45-day public comment period, which ended on June 22, 2025. No comments were received from the public.

The current storage permit (TNHW-199, formerly TNHW-141) allows the facility to store a maximum quantity of 10,000 gallons in an aboveground storage tank, 17,690 gallons in a container storage area, and 326 gallons in two return and fill (miscellaneous) units.

Corrective action conditions for the Solid Waste Management Units (SWMUs) and Areas of Concern (AOC) are included as part of the permit. The conditions of the permit require that any future and existing SWMUs or AOCs be evaluated for potential releases and remediation, as necessary. The conditions require notification of imminent hazards, and when applicable, compliance with the requirements developed under land disposal restrictions and organic emission standards.

The permit is issued under Tennessee Code Annotated, Section 68-212-101 et seq., and Tennessee Rule Chapter 0400-12-01, Hazardous Waste Management.
