

Holston Army Ammunition Plant Landfill Permit Modification Approved

The Tennessee Department of Environment and Conservation (TDEC), Division of Solid Waste Management (DSWM), has issued a solid waste disposal facility permit for a major modification to the United States Army Holston Army Ammunition Plant for their Class II landfill. The facility, identified as IDL370000090, is located in Hawkins County at 4509 West Stone Drive, Kingsport, Tennessee.

This major modification resulted in a lateral expansion to the existing landfill permit adding 17.6 acres of disposal area. This permit authorizes construction, operation, closure, and post-closure care of the fully-permitted Class II landfill for the disposal of industrial wastewater treatment biosludge, coal ash residuals/cinders, refuse/trash, demolition wastes, exempt material, asbestos, and approved special wastes, generated at the Holston Army Ammunition Plant and/or certain wastes having similar characteristics and approved in writing by TDEC. No hazardous wastes, as regulated by the Tennessee Hazardous Waste Management Act (Tennessee Code Annotated, Section 68-212-101, et. seq.) and the Rules adopted pursuant to the Act, shall be accepted for disposal at this facility.

DSWM made the draft of this permit available for review during a 45-day public comment period which ended April 29, 2021. Additionally, a public hearing was held virtually on April 6, 2021. DSWM received no oral or written comments during the above-mentioned public comment period or public hearing.

The final permit is posted online. Visit tn.gov/environment/notices/holston-army to access the facility information in the Dataviewer. Paper copies are available for review at:

TDEC Johnson City
Environmental Field Office
