

TENNESSEE ALUMINUM PROCESSOR INC & SMELTER SERVICE INDUSTRIAL LANDFILL PERMIT MODIFICATION – COMMENTS WELCOME

The Tennessee Department of Environment and Conservation (TDEC), Division of Solid Waste Management (DSWM), has tentatively decided to issue a solid waste disposal facility permit major modification to the Tennessee Aluminum Processor Inc & Smelter Service for their Class II Landfill. This permit modification will result in an expansion to the existing permitted landfill footprint.

The facility, identified as TAP-SSC Landfill (IDL600000213), is located in Maury County at 7249 Hoover Mason Road, Mount Pleasant, TN 3847 (latitude 35.548889/longitude -87.173611). This permit would allow the construction, operation, closure and post-closure care of the Class II disposal facility for the disposal of waste classified as waste by-product from an industrial-secondary aluminum smelter process. No hazardous wastes, as regulated by the Tennessee Hazardous Waste Management Act (Tennessee Code Annotated, Section 68-212-101, et. seq.) and the Rules adopted pursuant to the Act, shall be accepted for disposal at this facility. The official responsible for operation of the facility is Mr. A.J. Sanchez, Facility Manager, TAP-SSC Class II Landfill, 7249 Hoover Mason Road, Mount Pleasant, TN 38474 (352-536-3430).
