Other Resources for Lead Poisoning Prevention

The Centers for Disease Control and Prevention (CDC) Promotes state and local screening efforts and develops improved treatments for lead exposure.

<https://www.cdc.gov/nceh/lead/>

The Consumer Product Safety Commission (CPSC) Identifies and regulates sources of lead exposure in consumer products.

https://www.cpsc.gov/search?site=cpsc_site&output=xml_no_dtd&getfields=* &tlen=120 &client=ek_drupal_01&proxystylesheet=ek_drupal_01&filter=p&query=lead

The Department of Housing and Urban Development (HUD) Sets standards for evaluation and management of lead in federally assisted housing, and promotes efforts to reduce lead hazards in privately owned housing. In addition, provides grants to communities to reduce lead hazards in housing.

https://www.hud.gov/program_offices/healthy_homes

The National Conference of State Legislatures (NCSL) The NCSL Lead Hazards Project assists states on the issue of lead poisoning prevention by facilitating information exchange among the states and by promoting improved coordination between the states and EPA's Office of Pollution Prevention and Toxics.

<https://www.ncsl.org/research/environment-and-natural-resources/lead-hazards-project.aspx>

The Occupational Safety and Health Administration (OSHA) Develops work practice standards and worker exposure limits to protect workers from occupational lead exposure.
